UTAH LEGISLATORS AT THE TOP!

Legislators nationwide teach students about the legislative process through the NCSL America's Legislators Back to School program. Participating legislators reach out to our future voters and leaders and share the experience of serving as a legislator through discussion and age appropriate activities. The program was originally held for one week annually, but is now year-round.

In 2002, Utah legislators visited 9,000 students as part of the new program. During the 2005-06 school year, Utah's legislators met with 18,210 students, doubling the number of students involved annually. Eighty-one percent of Utah's legislators reported participating in the program during this school year, placing Utah as the top state for legislator involvement.
