**Fund 8090 Human Services-ORS Support Collections**

*Agency(s): Human Services  
Analyst: Stephen Jardine*

---

**Purpose and Uses**

This fund is used to facilitate the transferring of court-ordered child support payments by a non-custodial parent to a custodial parent.

**Accountability**

Money in this fund is subject to federal regulations dealing with: 1) the appeals process, 2) interstate child support payments, and 3) disbursement timeframes. As required, the Office of Recovery Services reports quarterly to the federal government regarding child support collections and disbursements. There are both federal and internal auditors who review the Child Support program. There have been no significant audit findings in the last three years. The Accountability is colored yellow because there are no state government fund-specific reports.

**Recommendation**

Due to the materiality and fiduciary nature of this fund, the Analyst recommends the fund be reported annually to the Social Services Appropriations Subcommittee.

---

**Graph Notes**

The largest amounts of money flowing into the account are court-ordered child support payments by a non-custodial parent to a custodial parent. The nature of these transfers results in a zero balance after the transaction.
