Proposed Appropriation Code Re-Organization

The Laboratory is proposing to reorganize appropriation codes to fit within Division structure. The proposed structure for the appropriation codes would be to 1) maintain LEA with no changes to unit codes, 2) collapse all testing units within LEC, LEF, LEE (Units 3310, 3330, and 3335 only) and LEG into one new code LEL, and 3) maintain the remaining LEE Units, 3315, 3316, and 3320 in LEE. Included would be a general administrative clean-up of unit descriptions and groupings.
