

Representative Menlove Motion Regarding Increasing TANF
Funding for “DWS – Child Care Competitive Subsidy Rates”

2/13/2014 7:25 AM

I move to approve the following:

Change Item number 14 on the “Likely One-time Uses for TANF (Federal) Funds – Chair Proposal” dated 2/12/2014 10:53 PM to read as the following:

One-time TANF (Federal Funds): ~~\$1,410,000~~ **\$1,880,000**

Total Funds: ~~\$6,144,900~~ **\$8,193,200**

DWS – Child Care Competitive Subsidy Rates – increase the lowest three rates for licensed child care centers from the 43rd to the 60th percentile of Utah rates. The agency says that the federal government would like the State to work toward paying at the 75th percentile (\$7,925,500 ongoing General Fund). The agency is concerned that the federal government may sanction the State if no effort is made to raise child care rates. This is an increase from the base of ~~10.5~~ **14.0%**.

How Measure Success? Rate increase

(Moved to one-time TANF list, increased from \$470,000 to ~~\$1,410,000~~ **\$1,880,000** with the intent of providing ~~three~~ **four** years of funding).
