- 326 immunizations provided in Utah County (1/5/2015 – 1/27/2015)
 - 265 MMR
 - 61 MMRV

Conduct Risk Assessments for each Information System

- 2015 focus is on assessing risk of UDOH's most sensitive systems and data.
- Each approved assessment is reviewed annually.
- All systems classified as restricted have a completed assessment.
- Efforts expand to examine risks associated with interface services that work with information systems processing sensitive information.
- 119 systems reviewed and signed assessments
- 1 to be completed

Conduct Risk Assessments for each Information System

- Risk results revealed 27 systems with 63 business process threats that present a moderate to high risk to UDOH data.
- UDOH is coordinating a system security planning process with DTS to ensure identified threats are (planned or directly) mitigated.

Threats Identified through Risk Assessment Process

Baby Watch/Early Intervention

1. The percent of children who demonstrated improvement in social-emotional skills, including social relationships.
2. The percent of children who demonstrated improvement in their rate of growth in acquisition and use of knowledge and skills, including early language/communication and early literacy.
3. The percent of children who demonstrated improvement in their rate of growth in the use of appropriate behaviors to meet their needs.

Baby Watch/Early Intervention
