

A Case for Family Medicine Residency Expansion in Utah

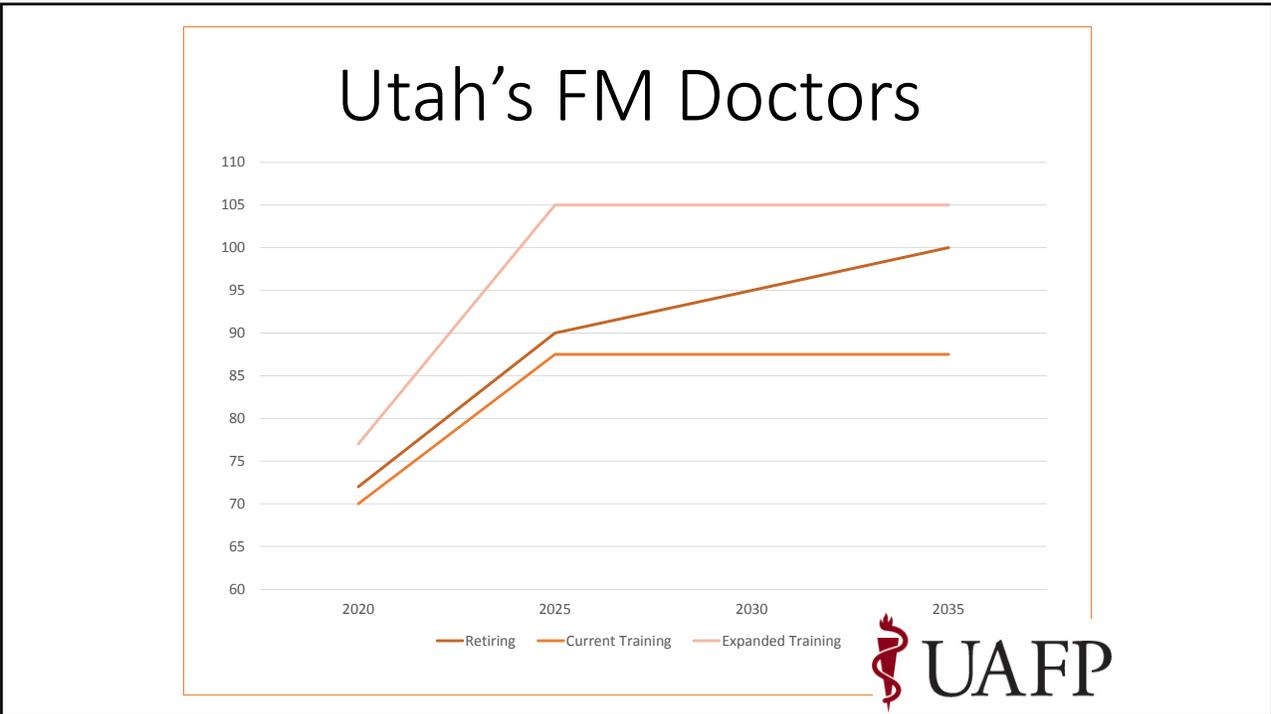

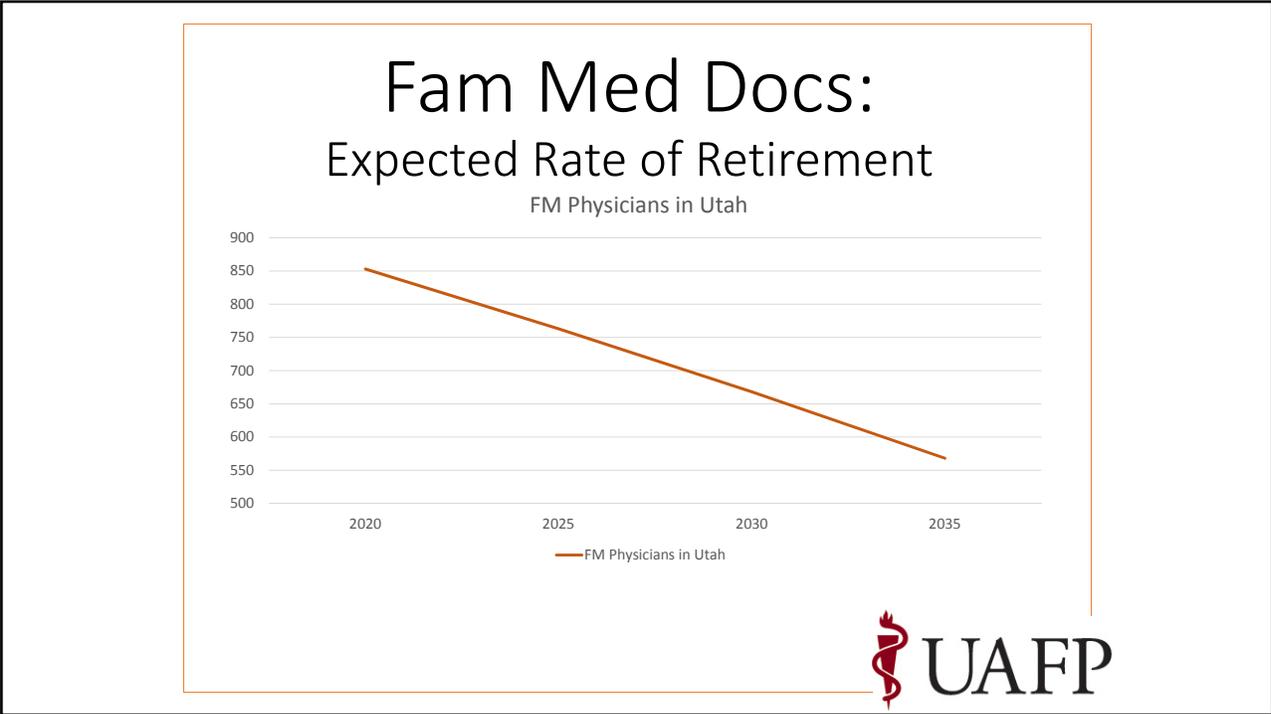

Access to Primary Care

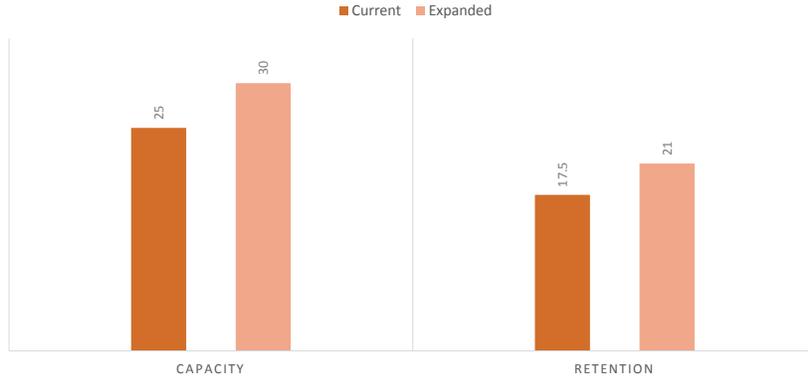

= 49th
in the U.S.

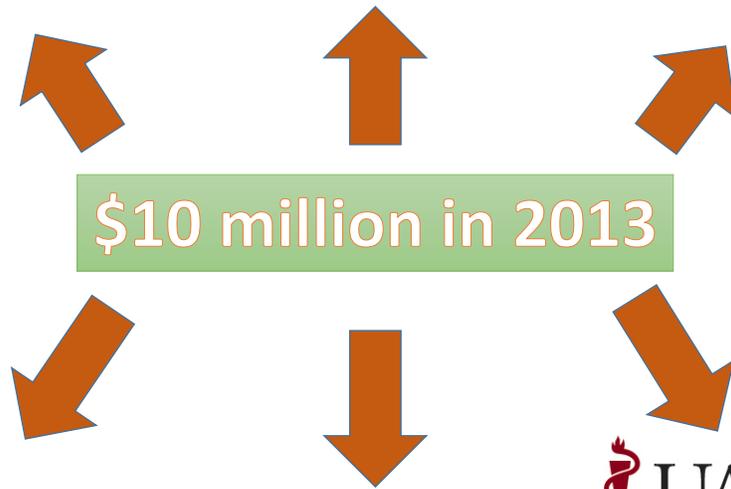

Family Medicine Residency

UTAH FAMILY MEDICINE RESIDENCY TRAINING CAPACITY

Investment in Healthcare: Keeping docs in Utah

Investment in the Economy

\$1.067 billion

\$1.5 million/doc

**Significant Economic
Impact**

5 direct jobs

11 total/physician

Win - Win

1. Retaining residents is more cost efficient than recruiting physicians from out of state
2. Take advantage of the tendency of residents to stay where they trained
3. Continue commitment to focus recruitment efforts on individuals with strong ties to Utah
