Re: How States Provide Auto Liability Insurance for Foster Youth

Attached please find the state survey conducted by State Risk Management in April 2016 regarding how auto liability insurance coverage is provided by other states. This information is derived from staff at NCSL, survey of states conducted through the State Risk Insurance Management Association, and State Risk Management's research on the internet.

We found no state risk management offices that provided this coverage or administered any funds or adjusted any claims for a fund that may have been set up by the Legislature.
