

USHE MISSION, ENROLLMENT, AND FUNDING

HIGHER EDUCATION
STAFF: SPENCER PRATT

ISSUE BRIEF

SUMMARY

Funding of institutions of higher education is determined in large part by two factors: the institution's mission and the number of students attending. Over time, both of these factors can change, resulting in changes in the funding levels.

OBJECTIVE

To provide information regarding the individual institutions, the enrollments, changes, and the impacts these changes have on the funding levels of the institutions.

DISCUSSION AND ANALYSIS

Institution Mission

The University of Utah and Utah State University are major teaching and research universities. They both provide undergraduate and graduate instruction and specialized academic and professional degree programs.

Weber State University, Southern Utah University, and Utah Valley University provide career and technology, baccalaureate, and select graduate education programs. Utah Valley University was created in the 2007 General Session with the passage of S.B. 70, "Utah Valley University Institutional Name Change". Prior to that change, Utah Valley State College was approved as a four-year college by the Legislature in 1994 through H.B. 11, "Utah Valley Community College Name Change".

Dixie State College was approved to become a four-year institution in the 1999 Legislative session with H.B. 32, "Dixie College Name Change". During the 2011 General Session, the Legislature approved S.C.R. 11, "Dixie State College Concurrent Resolution" which expressed support for Dixie State College for achieving university status. In the 2013 General Session, the Legislature passed H.B. 61, "Dixie State College – University Status," which authorized the change to Dixie State University.

Utah has two comprehensive community colleges, Snow College and Salt Lake Community College. These colleges provide educational programs to both traditional and non-traditional students.

Mission Changes

As mentioned above, both Utah Valley University and Dixie State College have had mission changes over the past 20 years. Following the change from UVCC to UVSC, state appropriations increased by nearly 14 percent in FY 1995, 11.75 percent in FY 1996, 11.1 percent in FY 1997, 9.2 percent in FY 1998, 11 percent in FY 1999, and 10.6 percent in FY 2000. These percentage increases were or were among the highest percentages statewide in each of these years. Most of the increased funding was to handle increasing enrollments at the institution, which averaged over 8 percent annually over that same time period. During the 2007 General Session, Utah Valley State College received an \$8 million appropriation followed by an additional \$2 million in the 2008 General Session as steps toward moving to university status. The appropriation increase was over 24 percent for UVSC for FY 2008.

Following the change at Dixie State College, state appropriations increased 6.5 percent in FY 2000, 10.6 percent in FY 2001, and 6.1 percent in FY 2002. Dixie State University received an appropriation of \$1.5 million in conjunction with its move to university status, making a total increase for FY 2014 of 13 percent. These percentage increases were also among the higher percentages in those years.

While some of the funding increases at both of these institutions were in response to the mission changes, the state funding per FTE remains among the lowest in the USHE. This is of concern especially when considering that both of these institutions offer both lower and upper division courses, yet the state funding per FTE student is lower than at other institutions that only have lower division courses. The FY 2017 data of state funding per FTE shows that Dixie State University is the 5th and Utah Valley University is 8th (of 8) on the scale of state funding per FTE student.

The previous tables show the historical perspective of state funding and tuition for higher education, both in total and per FTE.

DEMOGRAPHICS AND ENROLLMENT

Beginning in FY 1999-2000, enrollment in the Utah System of Higher Education increased for four years, then decreased for the three years following a high in FY 2004. Enrollment decreases turned in the fall of 2007 and rose for the next five years. The enrollment changes vary from institution to institution, with USU - Eastern actually losing nearly 30 percent of its enrollment since FY 2000 to 71 percent growth at Utah Valley University and 64 percent growth at Dixie State University. The total USHE enrollment growth since FY 2000 has been 29,506 students, or 33.7 percent. The trend is shown in the following graph.

Growth in the general population is one of the factors that contributes to student enrollment growth. The State’s population has grown 34 percent from 2000 to 2015. All eight USHE institutions are located in the 15 fastest growing counties in the state, with growth rates from 23.3 percent to 72.2 percent. Salt Lake County, home to the University of Utah and Salt Lake Community College, was the 15th fastest growing county since 2000, with a growth rate of 23.3 percent.¹

FUTURE ENROLLMENT PROJECTIONS

The Board of Regents has adopted enrollment projections that indicate an annualized FTE student count of 164,626 in 2025-2026. This represents an increase of 28 percent over the actual 2014-2015 level of 128,552.²

The Regents adopted a new 10-year strategic plan “Utah: A State of Opportunity – Utah State Board of Regents Strategic Plan 2025” in January 2016. The plan identifies the key higher education issues that the state is facing of being able to increase capacity to serve 50,000+ new students by 2025, and increasing the education attainment of Utahns to meet workforce demand.

The plan’s three strategic objectives include:

1. Affordable participation;
2. Timely completion; and
3. Innovative discovery.³
