Marketing/Utah's Own				
414.	Utah's Own Supporter	0.00	1,000.00	1,000.00
	<p>Utah's Own is a marketing program to encourage consumers to purchase local agriculture and food products to sustain the industry and grow the economy. As the buy local movement has grown, national chains and large corporations are trying to take part in the local movement. The Utah's Own program would like to create a "Utah's Own Supporter" category within the program which required paying a \$1,000 fee. The "Supporter" will target the large successful Utah's Own members and those companies that do not qualify for membership but want to be associated with supporting local agriculture and food. The program hopes to raise about \$20,000 and reduce its building block by the same amount. The funds raised through the new fee will be used in marketing and a marketing grant program for Utah's Own member.</p>			
415.	Utah's Own Year One Membership	0.00	25.00	25.00
	<p>Since the inception of Utah's Own the program membership has been free. The purpose was to provide Utah consumers the largest pool of companies to find local agriculture and food products. At the request of the legislature, a membership fee has been requested for member companies to participate in the program. A first year membership fee will cover membership for a company's first year in the program. This will allow for first year members and startups to experience the benefits of the program without seeing a significant financial burden. This will also give the Utah's Own program the ability to provide value over the first year before a higher membership fee kicks in.</p>			
416.	Utah's Own Annual Membership	0.00	50.00	50.00
	<p>After the first year of membership in the Utah's Own program, the annual membership dues will be increased to \$50 for each proceeding year. This fee will be used to support the marketing campaigns, website maintenance, commercial production, and sponsorships that encourage consumers to purchase local agriculture and food products. This fee will not be utilized the first year of implementation.</p>
