New Funding Request #1

OED Lease: \$105,000 ongoing

- ▶ **Current lease ends 4/30/2017**
 - ▶ OED is co-located in the WTC with GOED, WTC-Utah, and USTAR.
 - ▶ To-date OED has covered its lease expense largely through non-lapse OEDAD funds which are now depleted.

New Funding Request #2

PVE Stripper Well: \$297,100 one-time

- ▶ **Remaining balance in Fund 1404 - restricted funds must be used for energy efficiency and renewable energy programs** in coordination with the State Energy Program (SEP).
- ▶ OED has used PVE funding to leverage additional funding for alternative transportation projects including EV infrastructure, EV deployment, UTA fleet conversion, and agriculture energy efficiency, programs personnel, and to complete the 20% required state match for SEP.
