Blended and Digital Learning Solo

Blended and Digital Learning Integrated

Our Commitment

Our collective commitment is to enhance, extend and deepen learning for all stakeholders through the integration of research-based digital teaching and learning practices. These practices will engage students in the learning process and prepare them to thrive in their future.

Intended Learning Outcomes

Build Leadership Capacity

Develop a Future-Ready Culture of Learning

Prepare Educators for 21st Century Teaching and Learning

Prepare Students for Their Futures

Outcomes

The Three Embedded Concepts

How to get from our current reality to highly effective learning.

UETS, UTOT and 3 Embedded Concepts

21st Century Skills:

Students will be able to internalize and apply the 21st century skills and dispositions that are critical for their success in college, career, and life.

UETS, UTOT and 3 Embedded Concepts

Student Responsibility for Learning:

Students will be able to analyze their learning, develop clear learning goals and help develop personalized learning paths that meet their learning needs.

UETS, UTOT and 3 Embedded Concepts

Cognitive Rigor:

Students will be able to engage in authentic learning experiences, create and produce content and demonstrate deep knowledge and applied understanding.

Year One Goals

Laying the foundation for future success.

Goal 1:

Students will be able to internalize and apply the 21st century skills and dispositions that are critical for their success in college, career, and life.

Goal 2:

Students will be able to analyze their learning, develop clear learning goals and help develop personalized learning paths that meet their learning needs.

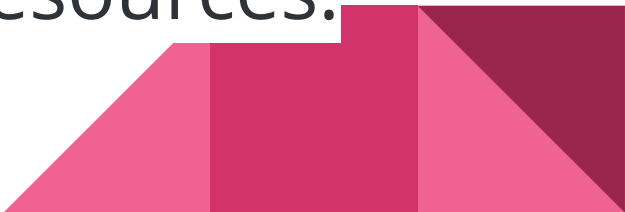

Goal 3:

Students will be able to engage in authentic learning experiences, create and produce content and demonstrate deep knowledge and applied understanding.

Goal 4:

Provide in person, online and job-embedded learning opportunities to improve employee knowledge, skills and efficiency. Provide online training opportunities that promote awareness and implementation of ethical, legal and responsible use of digital tools/resources.

Goal 5:

Provide schools digital citizenship tools and resources to help learners develop the knowledge, skills and dispositions that support and encourage the responsible use of digital tools and resources.

Thank You

Larry Bergeson
Superintendent

Tony Campbell
