

Computer & Automotive Engineering Building at WSU Davis

WEBER STATE UNIVERSITY
DAVIS

Infrastructure and General Government Appropriations Subcommittee

WSU's Three-Pronged Strategy

Build Computer & Automotive Engineering Building at WSU Davis
(non-state funded)

Demolish TE/Build Noorda Engineering and Applied Science Building on Ogden campus

Renovate Engineering Technology Building on Ogden campus
(capital improvement funds)

Computer & Automotive Engineering Building at WSU Davis

- Computer Science program
- Software Engineering program
- Automotive Technology program

Total space: 45,000 square feet

- 9,000 sq. ft. — classrooms
- 8,000 sq. ft. — computer and engineering labs
- 6,000 sq. ft. — faculty offices
- 10,000 sq. ft. — automotive lab and demonstration space
- 2,000 sq. ft. — student gathering space
- 10,000 sq. ft. — support and circulation space

Cost estimate =

\$15,529,988

- 100% donor funded

Ongoing state support:

- O & M allocations = \$397,810
- Future capital improvement allocations

Project is in Ideal Location

- Positive feedback from interviews, focus groups and surveys
- Close proximity to supporting programs, facilities and services
- Existing infrastructure
- Access to existing parking
- Commuter convenience

Project is Time Sensitive

- EAST has Utah's fastest-growing computer science program
- More students + inadequate classroom and lab space =

URGENT NEED

Project has Community Support

Full construction funding will be secured through
donor gifts or signed agreements

Project Will Reduce Operating Costs and Support Sustainability

- Eliminates needless rental expenses
- Maximizes existing utility infrastructure
- Solar field
- \$1,711,785 = amount WSU saved on electric, natural gas & water bills

Project Fulfills Industry Needs and Expands Partnerships

Hill Air Force Base

NORTHROP GRUMMAN

Weber State University owes
these students an education
in a building that is
worthy of their dreams.
