Totals	\$6,475,000	\$300,000	\$2,100,000	\$500,000

Voting Equipment Funding

- Per county funding based on average of county's active voters and votes cast in 2016 election
- Counties request reimbursement from the state by submitting detailed invoices
- Funds are exclusively used for statewide voting machine contract
- Counties have until December 31, 2020 to request funds

Security

- Rewrite the structure of statewide voter registration database (VISTA)
- Increase monitoring of Internet traffic at the state and county level and identify threats
- Provide security training and consulting for county election officials and IT staff
