ISSUE BRIEF

## SUMMARY

During the 2018 Interim Session, the Office of the legislative Fiscal Analyst reached out to the Commissioner's Office of the Utah System of Technical Colleges to request information related to the performance of Employer-driven programs funded by the legislature over the past five years.

This report was prepared by each college and compiled by the Commissioner's Office. We present it here for your consumption and education about how allocated funding has been used and the outcomes experienced by each of the programs.

We will work with the Commissioner's Office each year to update this report.

If you have any questions about the information contained in this document, please contact either the Commissioner's Office or Committee Staff.
