**COVERSHEET**  
**Governor's Office of Management and Budget**  
**Federal and Non-Federal Funds Report**  
**December 10, 2018**

**HIGHLIGHTS:**

**Federal Grant Applications Requiring Legislative Action**

- One new grant requiring legislative action

Health

*Cooperative Agreement for Emergency Response: Public Health Crisis Response*  
Federal Award of **\$ 2,500,000**  
No state match required

**Federal Grant Applications Approved by the Governor's Office**

- One new grant approved by the Governor's Office

Workforce Services

*Preschool Development Grant Birth through Five*  
Federal Award of **\$ 269,000**  
No state match required

- Two continuations/supplementals approved by the Governor's Office

Health

*Utah Essentials for Childhood Program*  
Federal Award of **\$ 71,428**  
No state match required

Health

*Behavioral Risk Factor Surveillance System*  
Federal Award of **\$ 402,954**  
No state match required

**Non-Federal Grants Requiring Legislative Action**

- One new grant requiring legislative action

Human Services

*Safe Utah Services*  
Non-Federal Award of **\$ 500,000**  
No state match required

- One reapplication grant requiring legislative action

Human Services

*Transformation Transfer Initiative*

Non-Federal Award of \$ **150,000**

No state match required

**Non-Federal Grants Approved by the Governor's Office**

None

# Federal Assistance Applications Requiring Legislative Action

December 10, 2018

				Federal Annual Award	Annual Match Requirement								
					State	Local/ Other							

## New Grants

Health	UTG-181126010-aa	Cooperative Agreement for Emergency Response: Public Health Crisis Response	Centers for Disease Control	\$2,500,000	\$0	\$0	2/1/2019 - 1/31/2020	87%	N	0	Submitted	1	New
Description and Purpose of Grant:		CDC released the first Public Health Crisis Response notice of funding opportunity (NOFO) (CDC-RFA-TP18-1802) on October 11, 2017. This new funding mechanism enables CDC to more quickly award funds to state, local, tribal, and territorial public health agencies in the event of a public health emergency. Previous emergency experience has demonstrated the impact that initial funding and immediate response can have in mitigating negative health outcomes. CDC's new funding approach allows the agency to expedite funding through the establishment of a corresponding "approved but unfunded" (ABU) list. This ABU list is established from the eligible health departments with pre-existing emergency management programs that submit timely and responsive applications.											

New Totals \$2,500,000 \$0 \$0

# Federal Assistance Applications Approved by the Governor's Office

December 10, 2018

State Department	State Application Identifier #	Grant Title	Federal Agency	State Fiscal Year			Start/End Date	% Share To Local Agencies	Expectation when funds expire	Add'l Permanent Staff	Grant Status	Grant Term (Years)	Type of Grant
				Federal Annual Award	Annual Match Requirement								
					State	Local/ Other							

## New Grants

Workforce Services	UTG-181105010-aa	Preschool Development Grant Birth through Five	Health and Human Services - Administration for Children and Families	\$269,000	\$0	\$0	12/16/2018 - 12/15/2019	0%	N	0	Submitted	1	New
Description and Purpose of Grant:		This grant funds states to develop a strategic plan to facilitate collaboration and coordination among early childhood services programs in a mixed delivery system to prepare low-income and disadvantaged children for kindergarten. The funding supports states to analyze the current landscape of their early childhood system and implement changes that maximize the availability of high-quality early childhood services options for low-income and disadvantaged families, improve the quality of care, streamline administrative infrastructure and improve state-level funding efficiencies. Utah is recognized as having the highest birth rate in the country, the youngest median age and the youngest average age for marriage. As a result, children under 6 years old comprise nearly one-third of Utah's child population but comprise 40 percent of the children experiencing poverty. These statistics emphasize the importance of establishing a coordinated and aligned birth through age five (B-5) early childhood system. The outcomes of this grant will empower Utah families with young children to make informed decisions to support their young children's healthy development through the "Empowering Utah Families Through a Coordinated B-5 Early Childhood System (Empowering Utah Families)" project.											
New Totals				\$269,000	\$0	\$0							

## Reapplications/Continuations/Supplemental

Health	UTG-181107030-aa	Utah Essentials for Childhood Program	Centers for Disease Control and Prevention	\$71,428	\$0	\$0	9/1/2018 - 8/31/2019	18%	N	0	Submitted	1	Supplemental
Description and Purpose of Grant:		This funding is a supplement to the State's Essentials for Childhood program. Last summer, the Violence & Injury Prevention Program applied for an Essentials for Childhood grant from the CDC. The EFC program is intended to implement strategies that will increase safe, stable, nurturing relationships for Utah children. This supplement is to allow us to expand our EFC Program Implementation Plan to include activities and approaches that address risk and protective factors for preventing opioid misuse/overdose and its relationship to adverse childhood experiences (ACEs).											
Health*	UTG-181115010-aa	Behavioral Risk Factor Surveillance System	Centers for Disease Control and Prevention	\$402,954	\$0	\$0	3/29/2019 - 3/28/2020	9%	N	0	Submitted	1	Continuation
Description and Purpose of Grant:		The purpose of this program is to provide financial and programmatic assistance to State Health Departments to maintain and expand 1) specific surveillance using telephone and multi-mode survey methodology of the behaviors of the general population that contribute to the occurrence of prevention of chronic diseases and injuries, 2) the collection, analysis, and dissemination of BRFSS data to State categorical programs for their use in assessing trends, directing program planning, evaluating programs, establishing program priorities, developing policy, and targeting relevant population groups. This program will help States monitor the prevalence of major behavioral risks associated with premature morbidity and mortality in adults to improve the planning, implementation, and evaluation of disease prevention and health promotion.											
Reapplication/Continuation Totals				\$474,382	\$0	\$0							

\*This grant has exceeded 125% of what was approved during the 2018 legislative session and/or its state match amount has exceeded the previously approved amount.
