HIGHER EDUCATION
STAFF: SEÁN FAHERTY

ISSUE BRIEF

SUMMARY

The Utah System of Technical Colleges (USTC) relies on direct state funding, school-sourced resources and partnerships with industry to maintain training equipment and materials for students to utilize during their education on campus. Currently, even with the funding sources named above, the equipment needs of the campuses as noted in a recent survey exceeds \$8.8 million. This brief shows the equipment needs within the system as you consider USTC’s \$3 million request for FY 2020 for new equipment across all schools.
