Moab	Automotive Technology	113,800
	Total	654,961

BUILDING CAREER & TECHNICAL EDUCATION

in Southeastern Utah

LEVELING CTE TUITION

Higher tuition costs are a barrier faced by place-bound students pursuing career and technical education certificates in southeastern Utah, one of the more economically depressed areas of the state. Leveling these CTE tuition costs with equity funding so they align with the Utah System of Technical College's tuition eliminates a significant obstacle for these students, while leading to economic growth in Carbon, Emery, Grand, and San Juan counties.

HIGH IMPACT PROGRAMS

Creating new Building Construction Technology, Medical Assistant, Instrument Controls Technology, Pharmacy Technology, and Automotive Technology programs fill significant medical and energy industry service gaps in rural southeastern Utah.

Leveling CTE Tuition

With current costs ranging from \$7.50 - \$14 per membership hour, this equity funding enables students in southeastern Utah to pay similar tuition as other CTE students throughout the state.

Campus	CTE Membership Hours FY17	Total Request
USU Blanding	42,022	\$231,121
USU Eastern (Price)	197,230	\$1,084,765
USU Moab	5,205	\$62,460
Total Request:		\$1,378,346

High Impact Programs

A re-tooled energy industry requiring skilled workers, and a medical employee shortage in southeastern Utah make these program requests critical to the area.

Campus	Program	Total Request
USU Blanding	Building Construction Technology	\$177,760
	Medical Assistant	\$87,961
USU Eastern (Price)	Instrument Controls Technology	\$170,000
USU Moab	Pharmacy Technology	\$25,290
	Medical Assistant	\$80,150
	Automotive Technology	\$113,800
Total Request:		\$654,961
