

## 100 women provided with contraception

# of unintended pregnancies prevented	20
# of unplanned births prevented	10
# of abortions prevented	10
# of miscarriages following unintended pregnancies prevented	NA*
# of unplanned births after short (<18 months) interpregnancy intervals prevented	NA*
# of unplanned preterm/low-birth-weight births prevented	NA*
Maternal and birth-related gross costs saved from contraceptive services provided	\$104,120
Miscarriage and ectopic pregnancy gross costs saved	\$4,120
Averted abortions gross costs saved	\$10
Total family planning costs	\$9,310
Total net savings	\$98,930

- \*Data are not available because the number is too low.
- Estimates are based on user inputs and formulas from Frost JJ et al., Return on investment: A fuller assessment of the benefits and cost savings of the US publicly funded family planning program, *The Milbank Quarterly*, 2014, <http://onlinelibrary.wiley.com/enhanced/doi/10.1111/1468-0009.12080/>, except for formulas related to pregnancies prevented, specifically total pregnancies, unplanned births, abortions and miscarriages following unintended pregnancies, which were updated as of June 2017 with the newest available data from Frost JJ, et al., *Publicly Funded Contraceptive Services at U.S. Clinics*, 2015, New York: Guttmacher Institute, 2017, [https://www.guttmacher.org/sites/default/files/report\\_pdf/publicly\\_funded\\_contraceptive\\_services\\_2015\\_3.pdf](https://www.guttmacher.org/sites/default/files/report_pdf/publicly_funded_contraceptive_services_2015_3.pdf)

## 900 women provided with contraception

# of unintended pregnancies prevented	190
# of unplanned births prevented	90
# of abortions prevented	70
# of miscarriages following unintended pregnancies prevented	40
# of unplanned births after short (<18 months) interpregnancy intervals prevented	20
# of unplanned preterm/low-birth-weight births prevented	10
Maternal and birth-related gross costs saved from contraceptive services provided	\$937,080
Miscarriage and ectopic pregnancy gross costs saved	\$37,090
Averted abortions gross costs saved	\$50
Total family planning costs	\$83,810
Total net savings	\$890,410

## 2,500 women provided with contraception

# of unintended pregnancies prevented	540
# of unplanned births prevented	250
# of abortions prevented	180
# of miscarriages following unintended pregnancies prevented	100
# of unplanned births after short (<18 months) interpregnancy intervals prevented	70
# of unplanned preterm/low-birth-weight births prevented	30
Maternal and birth-related gross costs saved from contraceptive services provided	\$2,603,000
Miscarriage and ectopic pregnancy gross costs saved	\$103,030
Averted abortions gross costs saved	\$150
Total family planning costs	\$232,810
Total net savings	\$2,473,370
