Fiscal Note Seminar

Legislator Briefing

January 2008
Fiscal notes show the financial impact of enacting a bill on:

- State government
- Local government
- Business and individuals

The Fiscal Analyst prepares fiscal notes for all bills.
Fiscal notes are used to:

• Balance the budget (a Constitutional requirement).

• Make rules Committee decisions ($10,000 rule).

• And make sure agencies have the correct funding to implement the bill.
The Analyst estimates the cost of implementing a bill. The Legislature determines how much will be appropriated to implement a bill.
Fiscal Note Process

The Analyst gets a copy of the bill from Legislative Research & General Counsel and the clock starts.

1. The bill is assigned to an analyst & you’ve got mail.
2. The analyst sends the bill to agencies & others.
3. Agencies gather info and respond to the analyst.
4. The analyst prepares the fiscal note.
5. Note is then reviewed by the Fiscal Note Coordinator and the Fiscal Analyst.
6. 24 hour letter is sent to sponsor & the clock stops.
Where is My Bill in the Process?

- Go the Legislature’s web site and select your bill.
- Select “Bill Status.”
- Fiscal Analysts actions shown in green.
(1)(a)(i) When the Legislative Fiscal Analyst receives the electronic copy of the approved legislation from the Office of Legislative Research and General Counsel, that office shall, within three legislative days:

(A) review and analyze the legislation to determine its fiscal impact; and

(B) provide a fiscal note to the sponsor of the legislation.

(ii) The three day deadline for the preparation of the fiscal note may be extended if the Legislative Fiscal Analyst requests it, states the reasons for the delay, and informs the sponsor of the legislation of the delay.
(b) If the Legislative Fiscal Analyst determines that the legislation has no fiscal impact, the Legislative Fiscal Analyst may release the fiscal note immediately after the sponsor has received a copy of the fiscal note.
(c) The sponsor may:

(i) approve the release of the fiscal note;
(ii) direct that the fiscal note be held; or
(iii) if the sponsor disagrees with the fiscal note, contact the Legislative Fiscal Analyst to discuss that disagreement and provide evidence, data, or other information to support a revised fiscal note.
(d) If the sponsor does not contact the Legislative Fiscal analyst with instructions about the fiscal note within one 24 hour legislative day, the Legislative Fiscal Analyst shall release the fiscal note.

(e) The Legislative Fiscal Analyst shall make the final determination on the fiscal note.

(f) The fiscal note shall be printed with the legislation.

(2) If an amendment or a substitute to legislation appears to substantively change the fiscal impact of the legislation, the Legislative Fiscal Analyst shall prepare an amended fiscal note for the legislation.

(3) The fiscal note is not an official part of the legislation.
What do You do If You Don’t Like the Note?

• If no data can be found to refute a note and you still want to save the bill, consider changing the bill.

• The Analyst is your best consultant in fiscal aspects of the bill and stands ready to help.
The 3 Day Rule

• The Fiscal Analyst has 3 days to complete a fiscal note. That is the shortest allowance we know of and Utah has the second shortest session. That leaves 1 day each to:

1. The Agencies (YMMV)
2. The Analyst
3. Approvals & processing
Accuracy vs. Timeliness

We believe it’s more important to be accurate than on-time and we are serious about getting both.
The Legislature started a new annual report to follow-up on fiscal notes. Over a two year period on selected bills, the report will:

- Examine the agency implementation of the bill.
- Check the accuracy of agency information.
- Check the accuracy of the fiscal note.

**F. No Fiscal Impact or Will Not Require Additional Appropriations?**

Specify why this bill will have no fiscal impact on your agency or institution.

**G. If Bill Carries Its Own Appropriation:**

Indicate if the amount appropriated is adequate to meet the purposes of the bill. Are there future additional costs anticipated beyond the appropriation in the bill? If no fiscal impact in the first two years, indicate any impact in future years, and explain. Also, indicate any significant changes in fiscal impact beyond the first two years. This legislation will prevent municipalities from using eminent domain proceedings against private dwellings to provide for commercial development in their taxing districts. The fiscal implications cannot be measured but could be significant depending on the nature of lost opportunities for commercial development.

**H. Impact on Local Governments, Businesses, Associations, and Individuals**

Individuals:

The impact individual property owners is difficult to determine. Some could stand to see gains on the sale of their property. But their replacement costs could be greater than the gains realized.
• Sometimes legislators reintroduce bills from previous sessions.
• If the bill is brought back without change, then the fiscal note should be the same unless the analyst gets new information.
• Bills are often changed.
“There is appropriated”

- From S. B. 46, Health Care Amendments:
  - “There is appropriated $500,000 from the General Fund for fiscal year 2007-08 only, to the Department of Health to be used to assist the local health departments with carrying out the surge capacity, emergency and community preparedness, and outreach provisions of Section 26A-1-27.”
  - Legislative leadership is discouraging funding “building blocks” through the bill process.
  - Come to the Analyst’s office and ask for a “Request for Appropriation.”
Protected Bills

• Sponsors may request a fiscal note on a bill not yet made public. These bills are “Protected” and carry the following:

• NOTICE: The attached draft legislation is a protected record under the Governmental Records Access And Management Act, Title 63, Chapter 2, Utah Code Annotated, and under the Utah Legislature Policies and Procedures for Handling Records Requests. The legislative sponsor intends this draft to remain protected. Release of this draft legislation or disclosure of its content carries criminal penalties.

• This draft legislation is provided to you for your review and comment. You may not distribute or share this draft legislation with any other person without the explicit permission of the legislative sponsor.

• If you are not the intended recipient of this email, please contact the sender by reply email, delete this email, and destroy all copies of this message.
• Agencies may share the bill within the department with people necessary to the process. The agencies may not share the bill with anyone outside the department.

• Unnumbered bills heard publicly in an interim committee hearing are not protected.
No Longer in Use

• No longer in use: “No Fiscal Impact” and “Can be handled within current budget.”

• They will be replaced with “Enactment of this bill will not require additional appropriation.”
• The table in the center of the fiscal note is limited to estimates of costs and revenues for the current year and two projected years.

• The text of the fiscal note is not limited and the note will discuss fiscal impacts whenever they happen.

• Full cost needs to be identified in the fiscal note.
Delayed Impact

• If the full cost is not incurred until the 2nd year the LFA will still indicate the full cost in the 1st year with an offsetting one-time negative funding amount.

• If full cost of implementation is beyond the second year, the full cost still needs to be identified in the fiscal note.
Delayed Impact Continued

Example: First year cost is $400,000 and second year (full cost) is $1,000,000:

<table>
<thead>
<tr>
<th></th>
<th>Year One</th>
<th>Year Two</th>
</tr>

</tr>
<tr>
<td>Net General Fund</td>

<td>$1,000,000</td>
</tr>
</tbody>
</table>
• The term “Amended Fiscal Note” is used only when a bill has been amended and the amendment changes the bill’s original fiscal note.

• A substitute bill is treated as a completely new bill, with its own fiscal note and worksheet data.
Revised Fiscal Notes

• If new information shows that the original fiscal note is inaccurate, a “Revised Fiscal Note” is issued. The Analyst documents reasons for the revision, changes in assumptions and calculations.
