

Ogden-Hinckley Airport Infrastructure Improvements

Request for Appropriation
February 2020

Project Description & Purpose

- Description: Infrastructure improvements at the Ogden-Hinckley Airport are required to capture immediate opportunities to grow Utah's aerospace and defense industry.
- Purpose: To ensure the growth of Utah's aerospace and defense industry, creating new high-wage jobs and attracting private investment. Supporting the growth of the aerospace industry is critical to support and expand the mission of Hill Air Force Base.

State Funding Request

- Request for state funding: \$10,000,000
- Uses:

Roadways and Access	\$1,650,000
Taxiways and Flight Support Areas	\$4,000,000
Utility Upgrades and Connections	\$2,350,000
Power Upgrades and Connections	\$1,250,000
Water Tank for Fire Suppression	\$750,000
Total	\$10,000,000

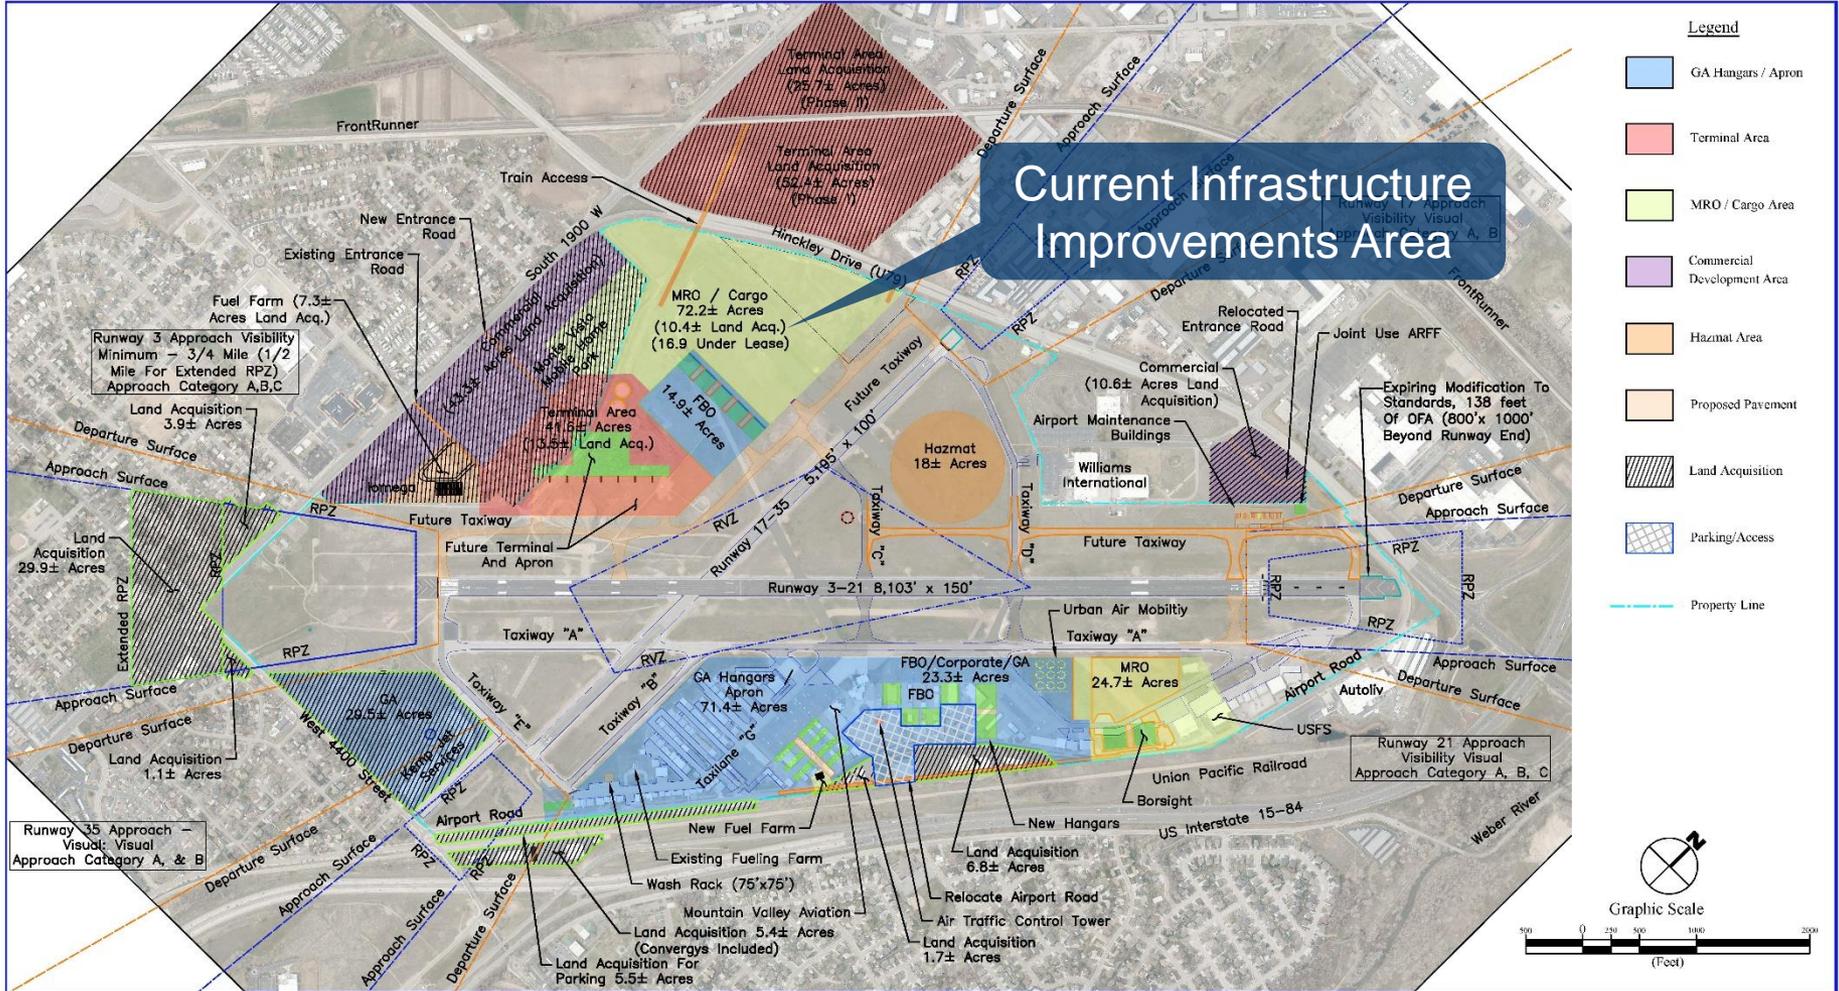

Project Outcomes

- Immediate projects supported by investment will create:
 - 900 new jobs in aerospace & defense
 - \$63 million in annual new wages
- Total anticipated benefit of immediate projects will include:
 - 2,728 new jobs
 - \$216 million in new earnings

(EMSI Input-Output Scenario, 2020)
- Investment will support growth of Northern Utah's aerospace industry and will help expand mission and workload of Hill Air Force Base
