Note 1: This column is the June 2020 consensus, which assumes a \$770 million shift in income tax payments from FY 2020 to FY 2021

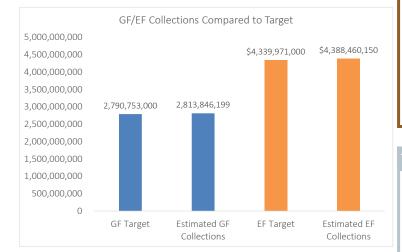

Note 2: The sales tax set-aside figure includes revenue from the recently enacted Medicaid sales tax increase of 0.15%.

SUMMARY

A Joint Publication of:

Governor's Office of Management and Budget

Preliminary FY2020 General and Education Fund collections sum to \$7.2 billion, slightly above the \$7.1 billion target. Given the many adjustments that are made between now and the final accounting around the middle of August, this is considered to be approximately on target. The revenue targets are adjusted to account for the economic impacts of COVID-19 and the anticipated \$770 million shift in income tax payments from FY 2020 into FY 2021 due to the extension in the filing deadline. Overall, revenue is not dropping by as much as analysts expected at the start of the pandemic partially due to federal stimulus and other measures that buffered the potential downside. There is considerable uncertainty about future revenue.

GENERAL FUND

Preliminary final General Fund collections for FY 2020 reached \$2.8 billion—a growth rate of 5.9%, which is equal to the consensus growth rate and above the dollar target. Sales tax revenue rebounded in the final month of the fiscal year, accelerating from 6.1% in May 2020 to 7.2% in June. Overall, the effect of the pandemic slowed revenue growth in April and May, with some pent-up demand driving sales tax revenue in June. The stronger than expected performance was partially due to federal economic stimulus, the future of which is unknown.

EDUCATION FUND

Preliminary FY 2020 Education Fund collections reached \$4.4 billion, representing a YoY decrease of 10.1%. The 10.1% decline was largely the result of individual income tax dropping 7.6% and corporate income tax decreasing 31.1%. The negative growth rate in the Education Fund is primarily due to delayed due dates for income tax payments. Overall, analysts expected revenue to fall by more due to the pandemic than what has happened so far, potentially because of the various forms of federal economic stimulus.

TRANSPORTATION FUND

Office of the

Legislative Fiscal Analyst

Transportation Fund collections reached \$600 million through the preliminary FY 2020 collections, up 0.1% over the prior year. This is above the -1.5% annual target. Overall, revenue held steady compared to the prior month, with revenue not dropping by as much as analysts expected.
