

COVID-19 Vaccine Update

Social Services Appropriations Committee
January 20, 2021

Utah Vaccine Administration Goals

1. Use all first/“prime” doses within 7 days of receipt (Executive Order)
2. Use all second/“boost” doses within 7 days of when they are due (Executive Order)
3. Increase the current vaccine administration throughput of 48,115 per week to at least 78,000 doses per week
 - *If demand slows, we are prepared to open to the 65-69 age category (124,183 people) immediately to maintain throughput of 78,000 doses per week*

How Many Vaccines We've Received

1st Doses Delivered to the State of UT	2nd Doses Delivered to the State of UT	Total Doses Delivered to the State of UT
204,700	118,800	323,500

We expect to receive **702,850** total doses by February 28, 2021

- 68% of the Phase 1 & 70+ population can be fully vaccinated by the end of February (351,425/515,689 people)
- Based on the BRFSS survey, this means 95% of those in the Phase 1 & 70+ population who responded they were “Very Likely” to get the vaccine will be able to get it by the end of February

Who Doses Have Been Delivered To

- Hospitals
- All 13 Local Health Departments
- Navajo Nation, Northwestern Band of Shoshone Nation
 - 6/8 Utah tribes elected for Indian Health System/Federal allocation
- Community Nursing Services
- Federal Pharmacy Partnership with Walgreens, CVS
 - Qualified long term care facilities, skilled nursing facilities, assisted living facilities
 - 100% of qualified facilities to receive first doses by January 23
 - Utah is scheduled to be the first state to finish all three clinics in its Federal Pharmacy Partnership facilities (March 6)

Administration by LHD and County

156,882

People Immunized with One Dose

15,721

People Immunized with Two Doses

172,603

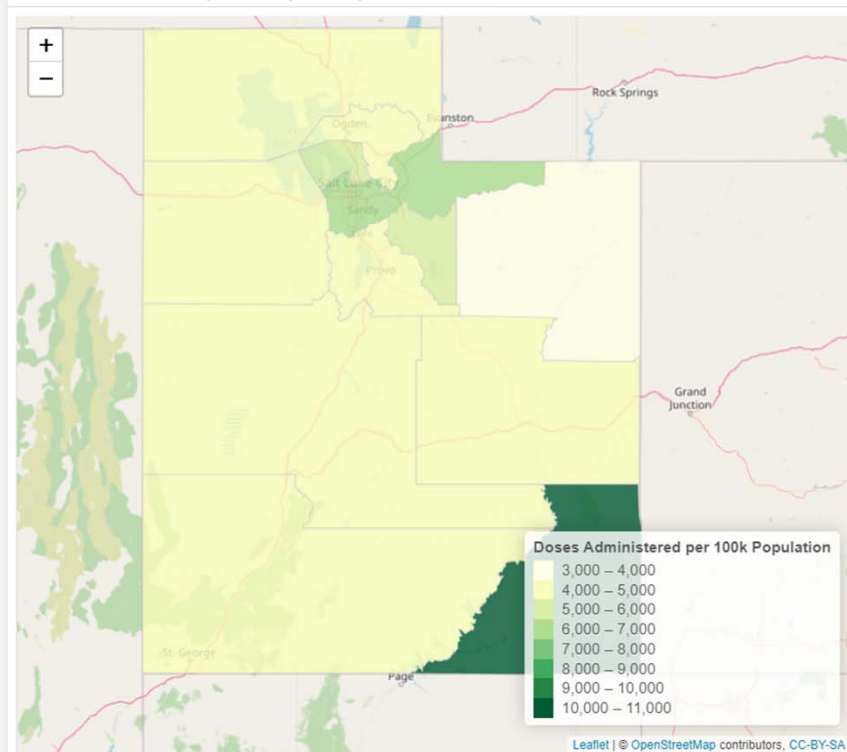

Total Vaccines Administered

Vaccine Administration by Patient Residence
