

ELEMENTS OF A POLYTECHNIC EDUCATION

DIXIE STATE UNIVERSITY™

We are a career-focused institution that combines applied learning with a liberal arts education and offer programs that anticipate and respond to industry demands.

ACTIVE AND APPLIED LEARNING

DSU's "active learning, active life." slogan emphasizes the core instructional method of active and applied learning by engaging with real world problems in real work settings.

100% of students participate in applied learning

CAREER FOCUSED

DSU will have an integrated curriculum that focuses on preparing graduates for careers through internships, cooperative education, clinical experiences and hands-on training. Our four-year, four award model provides students with on and off ramps for specific careers.

95% of grads are employed or furthering their education within 6 months of graduation

- ▶ All programs will have an Industry Advisory Board
- ▶ DSU students can connect with **9,500** employers at our career services

INDUSTRY COLLABORATION

Degree programs are designed through collaboration with industry partners. DSU will be a recognized leader in creating partnerships with businesses and non-profit organizations who infuse their expertise into each of our programs.

INTEGRATED LIBERAL ARTS AND SCIENCES WITH STEM INTENSIVE PROGRAMMING

Our comprehensive academic programs offer students basic professional skills while providing a focused set of degree programs in STEM fields.

Added **111** programs since fall 2015
