Recommendation of the Appropriations Subcommittee for
Infrastructure and General Government
For the 2021 General Session

Intent Language

Administrative Services - Finance - Mandated

1. *Under provisions of Section 67-19-43, Utah Code Annotated, the employer defined contribution match for the fiscal year beginning July 1, 2021 and ending June 30, 2022 shall be \$26 per pay period.*

Administrative Services - Inspector General of Medicaid Services

2. *Expenditures of these funds are limited to monitor compliance with State and Federal Regulations and implement measures to identify, prevent, and reduce fraud, waste, and abuse, and monitor the quality and reliability of Utah Medicaid providers service delivery and accuracy of billing.*

Capital Budget - Capital Development - Higher Ed.

3. *The Legislature intends that before commencing construction of a capital development project funded for an institution of higher education during the 2021 General Session, the Division of Facilities Construction and Management (DFCM) and the institution shall report to the Infrastructure and General Government Appropriations Subcommittee and the Higher Education Appropriations Subcommittee on the status and cost of the project, and that DFCM and the institution shall seek feedback from the committees before committing funds for demolition or construction. The legislature further intends that prior to committing funds for construction that DFCM, the institution, and the Board of Higher Education shall certify to the committees that the institution (1) has developed a plan that will utilize each classroom space in the building an average of 33.75 hours of instruction per week for spring and fall semesters with 66.7 percent seat occupancy, and will work to increase utilization of classroom space during the summer; and (2) has presented a plan to implement space utilization of non-classroom areas as per industry standards.*

Debt Service

4. *The Legislature intends that, if amounts appropriated from the Transportation Investment Fund of 2005 and the County of the First Class Highway Projects Fund to debt service exceed the amounts needed to cover payments on the debt, the Division of Finance transfer from these funds only the amounts needed for debt service.*
5. *The Legislature intends that, if amounts appropriated from the Transportation Investment Fund of 2005 and the County of the First Class Highway Projects Fund to debt service exceed the amounts needed to cover payments on the debt, the Division of Finance transfer from these funds only the amounts needed for debt service.*

Transportation - Aeronautics

6. *The Legislature intends that the Department of Transportation calculate an hourly aircraft rental rate for each aircraft that would be needed to recover (1) the direct operating cost and (2) the sum of the acquisition price less the projected proceeds from the sale of the aircraft at the end of its service divided by the projected number of billed hours for the aircraft, and that the department report its findings to the Infrastructure and General Government Appropriations Subcommittee before October 1, 2021.*

Transportation - Highway System Construction

7. *Notwithstanding intent language in H.B. 3, 2018 General Session, Item 133, the Legislature intends that the Seven County Infrastructure Coalition may use any amount remaining of the \$3,200,000 that was transferred in FY 2019 and FY 2020 to the coalition by the Department of Transportation to conduct an environmental impact study for the proposed the Eastern Utah Connector Highway to also be used for any improvements to or maintenance of any completed portions of the highway.*

Transportation - Railroad Crossing Safety

8. *The Legislature intends that the Railroad Crossing Safety Grants line item be renamed as the Railroad Crossing Safety line item.*

Special Motions

1. *In conjunction with one-time prioritization Item 18, “Sanpete County Courthouse”:
The Legislature intends that Courts study the proposed Sanpete County Courthouse project with a focus on reducing cost per square foot and increasing utilization of spaces within the proposed facility, and that Courts report on the study to the Infrastructure and General Government Appropriations Subcommittee before October 1, 2021.*

2. *In conjunction with one-time prioritization Item 21, “Urban Transportation Infrastructure - Double Track FrontRunner”:
The Legislature intends that the Department of Transportation plan to improve traffic flow through improvements to or redesign of roadways near the Bluffdale railroad trestle, and that the department report on the plan to the Infrastructure and General Government Appropriations Subcommittee before October 1, 2021.*

3. *The committee recommended that proposed liquor stores for the Department of Alcoholic Beverage Control in East Sandy and Sugarhouse be funded through revenue bonds to be authorized in the revenue bond bill.*

1 8 FINET Statewide Accounting System Upgrade

The Division of Finance needs to do a major upgrade and shift the maintenance, hosting, and support paradigm of the current state accounting system, or to replace it. This major upgrade and shift to a vendor-supported, cloud-based model modernizes the system and provides an accounting solution the State can commit to for another 10-15 years. The agency has estimated that the alternative, to develop a new accounting system, would cost \$75-\$100 million, with comparable licensing fees and maintenance costs. This request was funded during the 2020 General Session, but the funding was rescinded during the 5th Special Session due to budget shortfall.

4 Technology Services Partial Restoration

In the 2020 Fifth Special Session the Legislature reduced appropriations from the General Fund by \$101,900 in areas that affected the Department of Technology Services' operations including rate benchmarking study, website development, employee training, employee supplies, and membership dues. This partial restores the reduction.

1 Postal Facilities and Government Services Backout

The Legislature passed S.B. 65, 2017 General Session, "Postal Facilities and Government Services", which allowed certain state agencies to enter agreements with the United States Postal Service (USPS) to provide state services at post office locations. The bill repealed the newly created section on July 1, 2023. The Legislature appropriated \$74,700 ongoing from the General Fund beginning in FY 2018 and \$72,100 one-time from the General Fund in FY 2018 to the Department of Technology Services to provide high speed internet and technology equipment to 10 impacted post offices. Without an act of Congress to change federal law USPS cannot enter such agreements with state agencies. DTS has not expended the appropriations. The Legislature has eliminated the ongoing funding and this eliminates the one-time funding.

There is currently a dire and pressing need for a new courthouse in Sanpete County for the following reasons: (1) the current courthouse presents numerous security risks for court patrons, court employees, and members of the general public with business before the court; (2) the increase in the number of district court cases—involving both the prison and cases occurring in Sanpete County—have overwhelmed the courthouse as it is currently designed and the building can no longer accommodate the number of cases before the court; and (3) the building itself is constructed with thick limestone bricks—inhibiting the ability to use technology in and around the courthouse which has become an overwhelming obstacle in our increasingly technological world. Appropriations Adjustments

Advanced Traffic Management System (ATMS)

The ATMS software platform "Transuite" (referenced from this point forward as the 'System') currently in use in the Control Room is no longer meeting performance requirements for acceptable use. The System is the original platform used since the creation of the Traffic Operations Center in the late 90s. Instability in the core code base of the System causes frequent bugs and requires frequent restarts of all applications, shutting down services and preventing functionality. Both the instability and old code base make the system incompatible with new technologies that are needed for UDOT and Utah to manage transportation systems with modern solutions (for example, new electronic sign technology, data integration with third parties, AI, and connected vehicle applications). The System allows the use, control, and maintenance of the ITS (Intelligent Transportation System) elements throughout the state (a network of devices and communications dedicated to transportation solutions). Users of the System, Control Room Operators, improve mobility, reduce congestion, and improve safety, and clear incidents more quickly through System actions. When the System is unavailable due to restarts or other issues, or when the System cannot integrate with needed tools, these benefits are not available. A new system will improve the functionality of, not only the Control Room functions, but also general control and integration of new technologies, improved data flow into and out of the system, better data aggregation, and overall improved performance of Utah's transportation network. Utah will see fewer incidents and less congestion with a new System. Response to incidents that do occur will happen more quickly and tools to reduce the impacts from those incidents will improve with a new System.
