**MEMORANDUM FOR EXECUTIVE APPROPRIATIONS COMMITTEE**

**FROM:** Kimberly Madsen, Analyst  
**DATE:** December 1, 2021  
**SUBJECT:** Funding Mixes for State Employee Compensation  
Adjustments and Internal Service Fund Rate Impacts

During the 2017 General Session, the Legislature passed [S.J.R. 1](#), creating new [Joint Rule 4-2-406](#), which outlines how LFA should determine funding mixes when preparing budgets for state employee compensation adjustments and internal service fund (ISF) rate impacts. A funding mix is the proportional contribution of various funding sources that comprise the total appropriated amount.

The rule directs that funding mixes should be proportionate to an agency's base budget for the budget year, determined at the appropriation unit level. It allows for certain exceptions, including those that are based on state statute, federal regulation, or the terms of a federal grant. A list of these "statutory" exceptions is included in this packet on pages 3-4.

Other "non-statutory" exceptions to funding mixes, as proposed by agencies or legislators, may be submitted to and approved by the Executive Appropriations Committee. The rule directs the committee to reconsider non-statutory exceptions each year. A list of non-statutory exceptions that the committee approved for the 2021 General Session is provided in this packet on page 5. The committee may consider approving these exceptions for the 2022 General Session.
