

The 15 organizations of the Professional Outreach Program in the Schools (POPS), are requesting additional base funding of \$500,000 to increase arts education capacity for all K-12 Utah students with particular attention to underserved communities.

PROBLEMS TO ADDRESS

- Arts education programming is limited by funding, and requests for services exceed the organizations' ability to meet the needs of Utah's growing population.
- Schools in rural communities have less access to high quality art education, which we could provide with funding for the creation of digital content.

441,312

STUDENTS + TEACHERS
SERVED 2020-2021

\$500,000

REQUESTED
ONGOING FUNDS

Currently the 15 POPS organizations collectively serve over 441,312 students throughout the state. Increased funding would increase POPS reach and impact and allow these organizations to further develop virtual materials for all students across Utah.
