Quality Jobs

The West Weber Mega Site is a 6,000-acre master-planned Utah Certified Mega Site. The anticipated impact of this site in the next 20 years is approximately 25,000 new jobs, 25,000,000 sq. ft. of industrial/commercial space, 7,000 units of adjacent workforce, mixed-use, and diverse housing, and \$784 million in new state revenue, with \$63 million generated in the first five years.

Quality of Life

The Mega Site is a catalytic development initiative for Northern Utah that will augment quality of life for the residents and workforce, and combat aging out by providing good paying jobs, affordable housing, and amenities to this strategically planned and environmentally friendly Live, Work, Play community.

- Development Focus on Advanced Manufacturing and Technology with Local Partnerships for Workforce Development and Training.
- County Driven Form Based Codes and Environmentally Friendly Development Planning.
- Developer Investment to Preserve Wetlands, Augment, Natural Amenities, Create Trails and Alternative Transportation, Implement Renewable Energy Systems, and Repurpose Waste Water.
