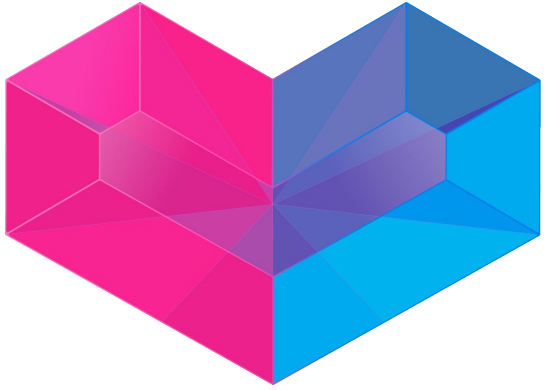
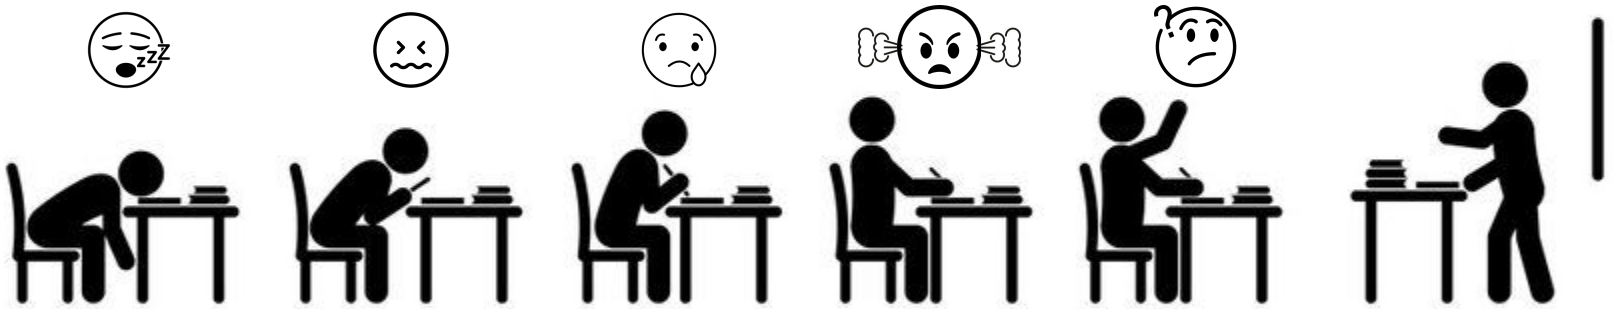
HEARTBEAT®



Learning is relational.

Academic performance cannot improve without focusing on non-academics, the whole child.



This is why we created **Heartbeat™**

Heartbeat ties a student's emotional health, cognitive position, and background to their ability to achieve academically.

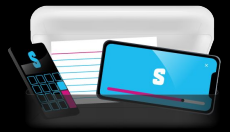
Digital Non-Academic Tools



Environment

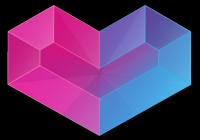
A place of comfort & motivation

Research & Framework

Best in class research for the Whole Child

Questions

Written by experts in psychometrics



Feedback

Educational psychologists focused on self-driven learning

The Whole Child - Learner Variability.

In partnership with Digital Promise

Literacy	Cognition	Social-Emotional Learning	Student Background
Argumentative Reasoning	Attention	Emotion	Adverse Experiences
Background Knowledge	Auditory Processing	Motivation	Hearing
Composition	Cognitive Flexibility	Self-regulation	Literacy Environment
Critical Literacy	Inhibition	Social Awareness & Relationship Skills	Physical Well-being
Disciplinary Literacy	Long-term Memory	Stereotype Threat	Primary Language
Inferencing	Metacognition		Safety
Reading Fluency	Reasoning		Sleep
Syntax	Short-term Memory		Social Supports
Vocabulary	Speed of Processing		Socioeconomic Status
	Visual Processing		Vision
	Working Memory
