

H.B. 202 - SIGNATURE THRESHOLD AMEND.

Purpose and Objectives:

Adds a new signature floor for partisan office races

3% or Current Thresholds:

Statewide races: 28,000

Congressional: 7,000

State Senate: 2,000

State House: 1,000

Board of Education: 2,000

Requires signatures from 3% of the registered voters of a qualified political party within a given race, or the number already established in the current static threshold, whichever is greater

Why?

This change will appropriately proportion signature requirements for candidates from more sparsely populated districts
