

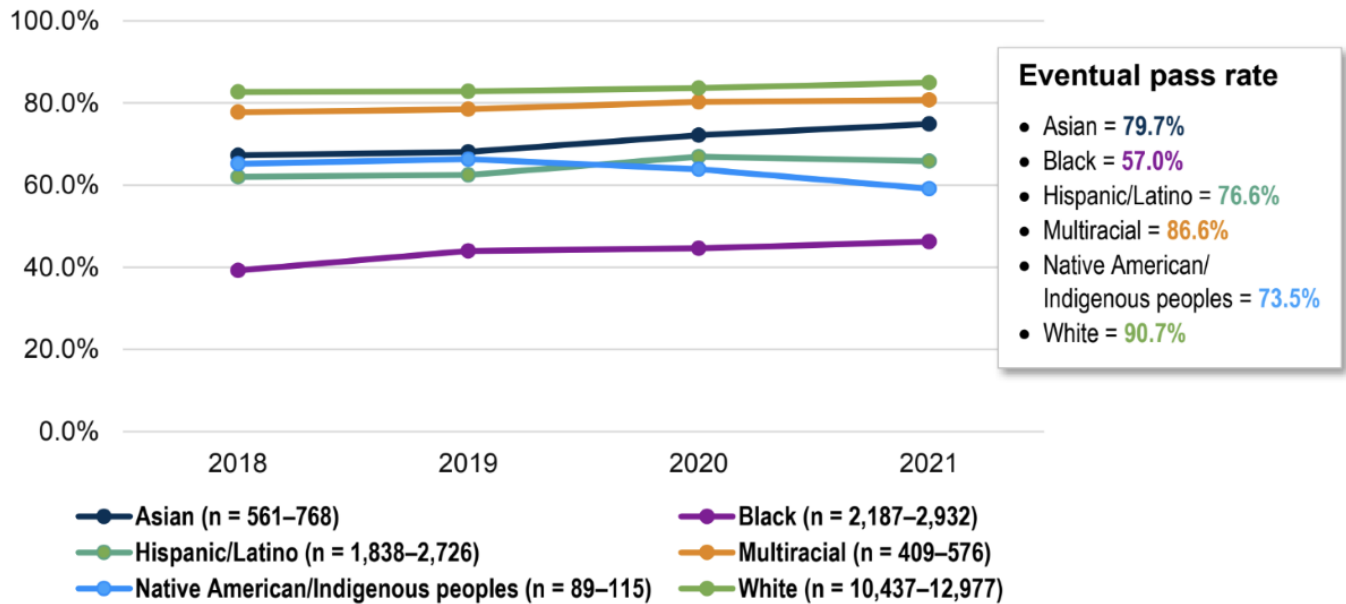

Figure 2. 2018–2021 Clinical exam first-time pass rates by year and eventual pass rates by race/ethnicity

Note. Data shown may not reflect all test-takers because those who selected options such as *Prefer not to say* or filled in their own identifiers were excluded from this analysis. These options were not available to test-takers at all points during the target time period. ASWB has altered the response options available on the exam registration forms and will continue to evaluate these options to ensure test-takers may accurately respond.
