

Utah State Legislator:

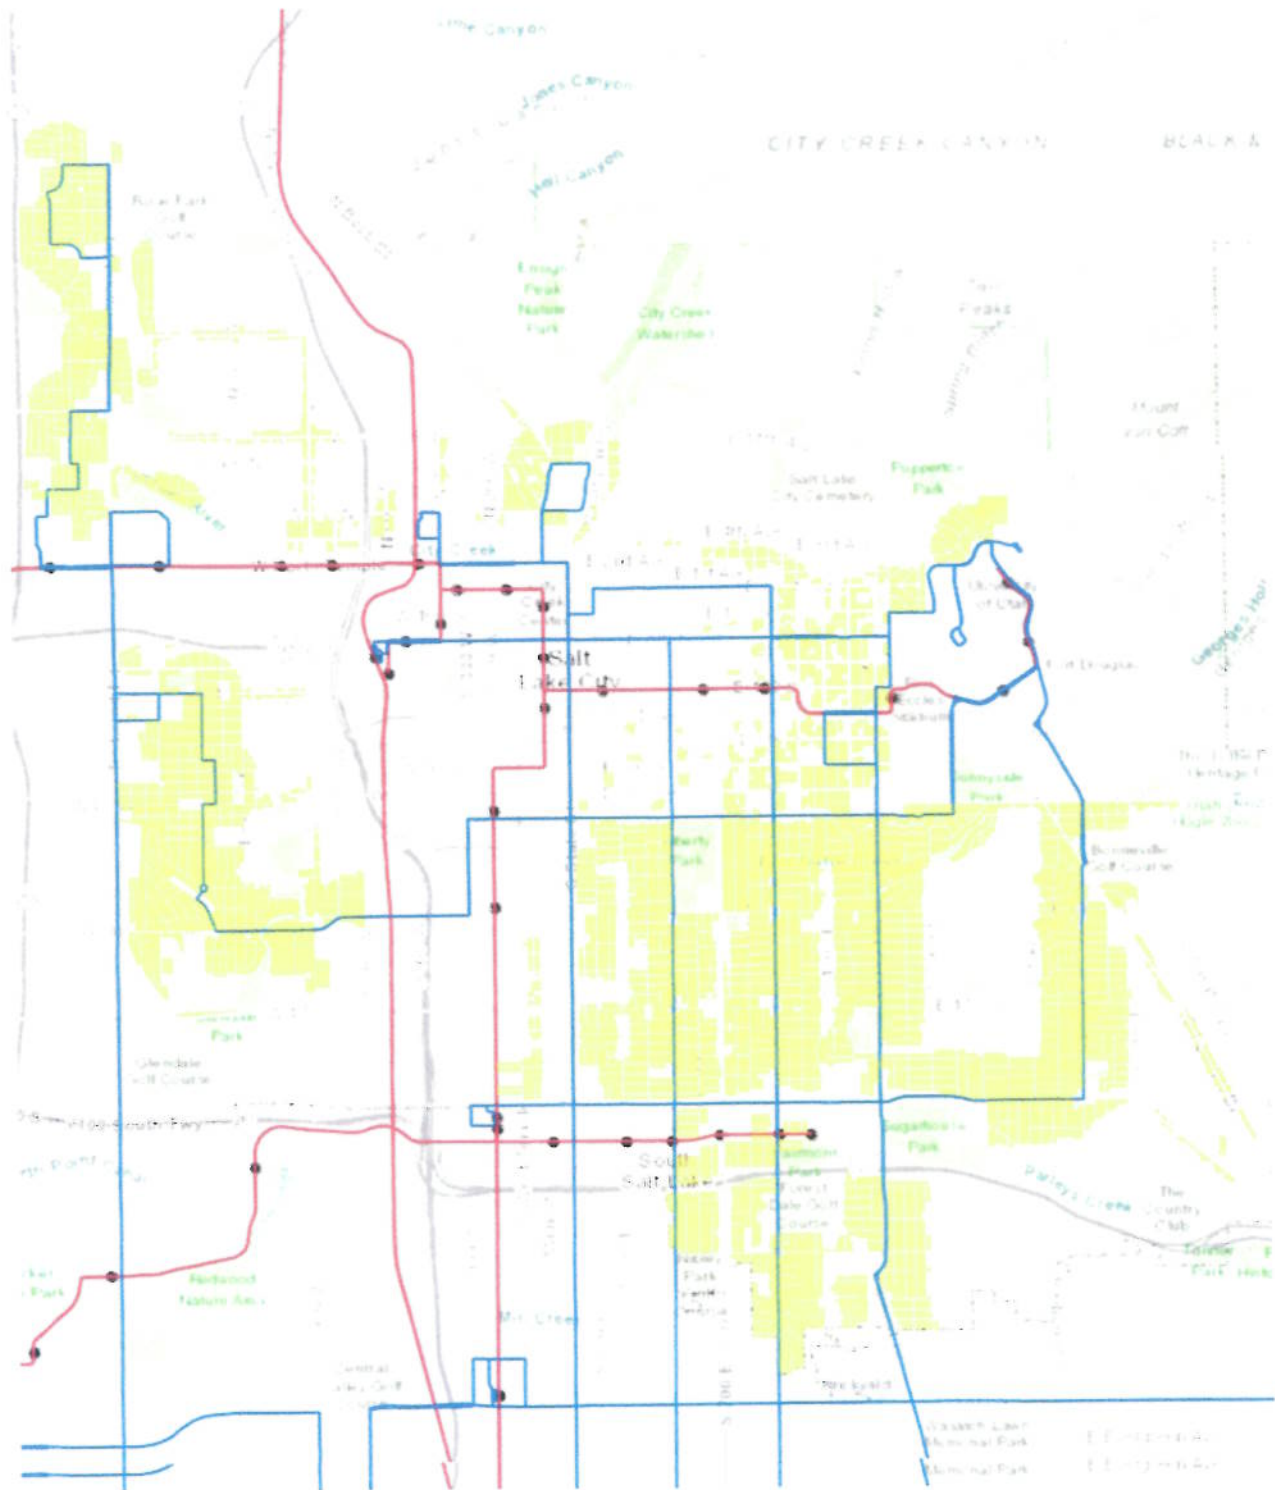

Salt Lake City is using affordable housing laws passed by the Utah State legislature as weapons to harm Salt Lake City homeowners by proposing zoning codes that will encourage the dismantling of stable, intact, tax-revenue producing neighborhoods. And it's using abhorrent housing policies from the 1930s to shame and vilify Salt Lake homeowners that their homes are the tools to settle this score. Please pass legislation that would protect hard-working citizens from this punitive regulation.
