

Please Support H.B. 150 - Emergency Water Shortages Amendments

On behalf of Utah's family farms and ranches, we encourage you to support **H.B. 150 – Emergency Water Shortages Amendments** by **Rep. Carl Albrecht**.

The bill establishes a defined process for a water user to exercise preference-of-use during a temporary water shortage emergency. This bill protects farmers and ranchers by setting up a framework for an interrupted water user to receive fair compensation from the preferential water user. The bill sets a high bar for this process to be used by requiring a “temporary water shortage” declaration by the governor with review by the legislature.

Supported by Utah Farm Bureau Federation, Utah Department of Agriculture and Food, the Eagle Forum, and United Women's Forum.
