Re: Annual report regarding entity compliance with Community Reinvestment Agency Database

Committee Members,

Pursuant to *UCA 17C-1-603 (6)* our office shall provide a report to the Political Subdivisions Interim Committee that identifies agencies that complied or did not comply with reporting requirements found within this section of code. When a Community Reinvestment Agency complies with statute, it allows our office to create and provide a database to track and publicly make available information including: property valuations, funds collected, balances and amounts paid to other taxing entities.

The database is located at: <https://goedcommunity.utah.gov/RDA/s/>

Our evaluation of the report includes those agencies in three groups.

1. The first group are those that are highly engaged in providing information by project, maintaining required information as of the date of this report, for the previous reporting period
2. The second group are engaged in providing information by project, but currently is missing information in one or more project as of the date of this report, for the previous reporting period
3. The third group have been reported as to having a Community Reinvestment Agency by either self-reporting or from the Utah State Tax Commission, but have not fully engaged to provide information about their projects in any of the previous two reporting periods

Please let our office know if you have any questions regarding our participation or analysis in collecting this information for the database.

Best Regards,

Jim Grover  
Managing Director, Grant and Incentives  
Governor's Office of Economic Opportunity
