| 10. Supporting Teacher Development, Recruitment and Retention Through Teacher Leadership Tracks | Request: \$4,800,000 One-time |

RESA Service and Support Enhancements for Rural Education

Request: \$1,150,579 Ongoing

Purpose: Shifts instructional coaching to implement equitable regional support in literacy and professional learning as outlined in SB 127. Provides educator salary adjustment funding for eligible RESA employees.

Projected Results

- Increased literacy for students
- Increased number of RESA staff receiving (ESA) supplement
- A 10% increase in RESA retention of employees

Rationale

- Need to extend essential services to rural educators
- Increasing market pressures to retain qualified employees
- Need to continue services for rural schools

If not Funded...

- Inequitable access to essential services for PK-3 rural educators
- RESA may lose qualified employees
- Risk in continuity of services
