

Plain City Sewer Headworks Replacement Project

[Edit Request](#)

Requester Information

Legislator: Gwynn, Matthew H.

Creation Date: 2024-01-25

Submission Date: 2024-01-25

Section 1: Request Details

Description:

Our current sewer system is outdated and inadequate to meet the needs of our growing community. Investing in rebuilding the sewer system headworks is an investment in the economic vitality and future growth of our entire state.

Legislative designee contact information:

Should unused funding be returned to the state at the end of the fiscal year?

No

Is this project scalable if the Legislature does not fund the full requested amount?

No

Section 3: Agency Information

Subjects:

Government Administration
Infrastructure and Mobility

Agency:

100 / Department of Government Operations

Type of entity to receive pass-through funding

- Local Government
-

Section 4: Performance Outcome Measurement

Who would benefit from this request (who is the target audience)?

One of the key benefits of rebuilding Plain City's sewer system is the potential to foster increased home ownership and expand housing density. As Utah faces a growing demand for housing, especially outside the main urban valley, Plain City presents a unique opportunity. With a revamped sewer system, we can encourage responsible and sustainable development, providing much-needed housing options for Utah residents.

What is this project or program intended to accomplish?

A modernized sewer system will also contribute to environmental sustainability and public health. By doing so, we are contributing to the growth and prosperity of our entire state.

How will the Legislature know whether the project or program achieved its intended purpose?

Affordable housing needs will be alleviated as the innovative wastewater solutions are implemented.
