

H.B. 184

Vehicle Owner Registration Requirements

Rep. Jordan Teuscher

Under the current law

The code mandates that operators of Off-Highway Vehicles (OHVs) must carry their physical paper registration card at all times. However, many OHVs find it challenging to store the card, and exposure to the elements can also pose difficulties.

This bill will allow OHV operators to show proof of registration by presenting:

- the physical registration card,
- a digital copy or photograph of registration card on their phone, or
- on an app approved by the agency

H.B. 161 AUTO REGISTRATION REQUIREMENTS (2018)

Eliminated the requirement for drivers to carry proof of registration in their vehicles (on-highway).
