Memo to: Utah State, House of Representatives, Health and Human Services committee  
Chairman Ivory

Thank you to you and your colleagues for the great service to the State of Utah. Unfortunately, I am not able to attend the hearing due to family funeral.

I have asked a representative of our business and friend to present this information and letter to your committee. I strongly urge your support for SB 61. This bill holds the potential to enact positive changes that benefit our community. By voting in favor of SB 61, you contribute to the betterment of our state, addressing crucial issues and fostering progress. Your support for this legislation is an investment in the well-being and future prosperity of Utah. Please consider the positive impact this bill can make and cast your vote in favor of SB 61.

I have some very personal family experiences with vaping that could have caused serious harm to my family members, and I know the danger of vaping for teens in our community. Again, I heard you vote for SB 61 to end this plague of addiction, beginning with our youth. Thank you very much for your time.

Sincerely,
