

**EOCJ Funding Item Follow-Up Report Action Items Summary**

Item	AGENCY	PROJECT	LFA RECOMMENDATION	AGENCY RESPONSE	Co-Chairs Position
1	Governor's Office	Utah Victim Services Commission	We recommend the agency report on the status of the Victim Services study in in the 2025 performance report, and report on the final findings of the study in 2026 when it is finalized.	Support	Support
2	Corrections	Prison Staff	We recommend that the Department report on this item again in the 2025 Funding Item Follow-up Report.	The Department supports this recommendation and is committed to providing ongoing data as part of its commitment to reducing mandatory overtime.	Support
3	Public Safety	Southern Base Helicopter Operational Costs	The Analyst recommends the Legislature consider the following options to address any structural imbalance: 1. increase fee that goes to support the Aero Bureau via the GFR - Aero Bureau Restricted Account (for every \$1 increase in OHV fees that could generate \$240,000 ongoing to support this function); 2. Restructure transient room tax revenue that currently is designated to for local search and rescue (for counties of the fourth, fifth and sixth class per UCA 17-31-2). The department could charge and collect for this function from these earmarked funds prior to any distribution to locals; and 3. For search and rescue operations within state parks, the Aero Bureau could charge state parks for these services and since parks are funded through user fees, they could adjust fees accordingly to account for this service.	Neutral, while we support and appreciate additional funding that can assist the helicopter program, DPS remains neutral regarding any tax increases	Eliminate the search and Rescue Card Program, propose option 2 (open to committee for discussion of using any of the three options, or a combination of the options) *Same as APB report position, would require some statute changes

<b>Item</b>	<b>AGENCY</b>	<b>PROJECT</b>	<b>LFA RECOMMENDATION</b>	<b>AGENCY RESPONSE</b>	<b>Co-Chairs Position</b>
4	Public Safety	POST Investigators and Instructional Designer	The Analyst recommends a one-time reduction of \$100,000 for this item.	Oppose, we agree with the analyst's findings but would request these funds remain with POST as its budget is extremely tight and it is already foregoing certain needs just to balance	Support
5	Public Safety	Computer Aided Dispatch HUB Project	The Analyst recommends that the Legislature review this item in the the 2025 report.	Support	Support
6	Public Safety	Law Enforcement Officer Amendments	The Analyst recommends that this item be reviewed in the 2025 report.	Support	Support
7	Public Safety	Suicide Prevention in Correctional Facilities	The Analyst recommends this funding item be reviewed in the 2025 report. Assuming locals do not take advantage of this grant funding, the Legislature could reduce \$140,600 one-time for this program.	Support	Support
8	Public Safety	Sale of a Firearm Amendments	The Analyst recommends reducing funding for this item by \$22,400 one-time.	We support the \$22,400 1x reduction.	Support
