APPROX. \$200-\$400 / MO.
a single diaper costs
about **\$1.86 avg.**

COSTS PER YEAR

DIAPERS USED PER DAY

Daily average of
10-12 in first month

NON-PROFIT COST'S

WHOLESALE COST

at Utah Diaper Bank
they pay on average
.25 per diaper

SOLUTION

HB547 allows for
voluntary
contributions
from individual
taxpayers who
could contribute
to The Diapering
Supplies Fund
on their
Tax Returns.

DIAPER RECIPIENT SURVEY RESULTS

88% OF DIAPER RECIPIENTS ARE EMPLOYED

70% say the distribution helps them pay bills, feel less frustrated, have more money for transportation.

75% say the distribution said that diaper distribution helps them buy food, and essential non-food items.

60% PARENTS REPORT HAPPIER CHILDREN

Children cry less, sleep better, and improve their child's overall happiness.

80% OF RECIPIENTS FEEL MORE CARED FOR

They feel more connected to society, less stressed, and feel like a better parent & care-giver.

DUE TO SUPPLY CONSTRAINTS,
MANY CAREGIVERS EXPERIENCE STRESS TRYING TO
PROVIDE THESE NEEDS FOR THEIR CHILDREN.

INFORMATION AND STATISTICS PROVIDED BY THE UTAH DIAPER BANK

The Utah Diaper Bank existed as a volunteer-based foundation for 11 years and only just hired on its first employee January 2025. They distribute through a network of partnerships with non-profits and government agencies. They have steadily grown from distributing **11,324** diapers in **2013** to **1.9 million** diapers distributed in **2024**.
