## **2024/2025 Voter Registration Audit**

Utah code *§20A-5-901* requires the Office of the Lt. Governor to audit the records of .02% of all active voters each year. The purpose of the audit is to ensure that voter registrations are accurately processed in accordance with state and federal law, to determine patterns or areas of concern that necessitate the need for training, and to share results with County Clerk's so that corrections can be made.

In addition, the LT. Governor's office voluntarily audits the registration database every quarter, which has resulted in five times the number of records being audited that are required by law. (Quarterly audits began with the fourth quarter of 2023).

The audit was conducted by Daniel Wade, Election Systems Specialist – Office of Lt. Governor

He was assisted by:

Zach Fish – Election Systems Specialist, Office of the Lt. Governor

Ginger McMullin – Clerk/Auditor, Beaver County

Seth Marsing – Clerk, Carbon County

Cindee Mikesell – Deputy Clerk, Morgan County

Genna Goodwin -Deputy Clerk, Washington County

Adam Eaton – Election Specialist, Washington County

Cathy Doyle – Election Specialist, Washington County

Kris Swenson – Elections Director, Utah County

Cambria Cantrell – Elections Supervisor, Utah County

Dana Van Horn – Elections Coordinator, Grand County

Cristina Neilson – Election Specialist, Duchesne County

*(Note: County staff did not assist in the audit of records from their own county)*

A breakdown by county of the number of voter records audited is shown in the following tables.

## Data Points

The following items were reviewed in the audit. \* Items are required by §20A-5-901. All other items were added by the Lt. Governor's office. A description of what the audit team reviewed is also provided.

**\* Eligible** – Did the voter mark "Yes, I am a U.S. citizen" on their registration form, are they of legal age to vote and a resident of Utah and did they sign the affidavit affirming their age, residency, and citizenship status?

**\* Documents** – 1. Documents submitted by the voter were used to ensure that the information entered in the database matched the personal information provided by the voter. 2. Were documents attached that supported any changes made to the record?

**\* Signature** – Did the record contain a signature of the voter taken from a registration form, affiliation form, signature affidavit or Driver's License?

**\* Duplicate** – 1. A statewide voter search was conducted by the auditing team to ensure the voter was not registered more than one time. 2. The audit team verified that the county has been processing their duplicate voters list on a regular basis.

**\* Deceased** – The audit team verified that each county has been processing their deceased notifications list on a regular basis and that the voter is not deceased.

**Address** – 1. Did the record contain documentation to support an address change? 2. If documentation was not attached, could the address be verified via the Driver's License Division?

**Precinct** – The audit team verified that the voter was assigned to the correct precinct using information obtained from Utah Geospatial Resource Center (UGRC).

**Status** – The audit team reviewed each record to ensure that the voter should have a status of "active" (i.e., no undeliverable mail or lack of voting which could inactivate the voter, or incomplete information that would prevent the voter from being eligible to register).

**Identification** – Did the record include the voter's UT Driver's License / State ID number or the last four digits of their social security number and were those numbers validated?

**Date of birth** – Did the date of birth listed on the voter's registration form match the DOB entered in the record?

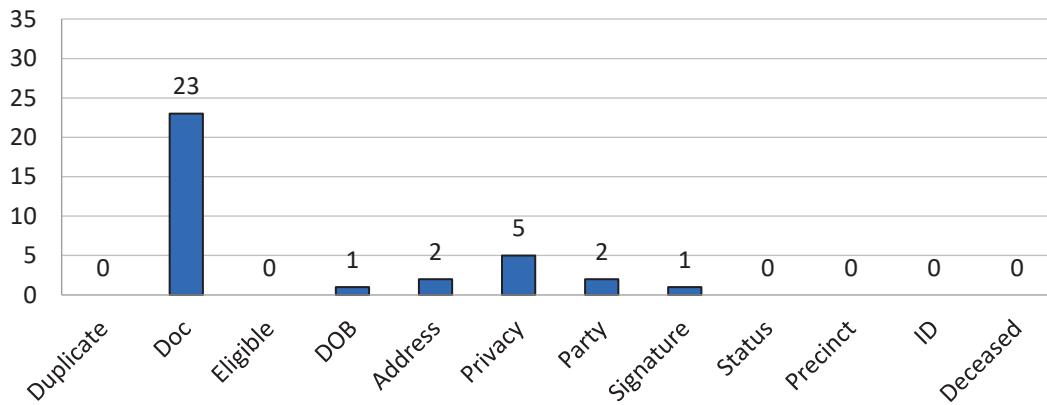

**Party** – Did the party affiliation selected on the voter's most recent registration form match the party affiliation selected in the record?

**Privacy** - Did the privacy classification selected on the voter's most recent registration form match the privacy classification selected in the record?

## Quarterly Audits

**22,035** data points reviewed

## Conclusion

Since the last audit report was provided to the Government Operations Interim Committee in September of 2023, the Lt. Governor's office has audited a total of **4,459 voter records** and **30,351** specific items within those records.

Overall findings indicate that the County Clerks are processing voter registration forms in accordance with Utah and Federal law. Accuracy rates from the yearly audits required by *§20A-5-901* are consistently at 99%. Accuracy rates from additional audits conducted quarterly by the Lt. Governor's office have risen from 91% to 99%. In the first quarterly audit conducted in 2023, all counties had at least one finding. In the most recent audit conducted in the second quarter of 2025, 21 counties had a perfect score (no findings).

Training provided by the Lt. Governor's office to the County Clerks has been valuable in maintaining an accurate voter registration database. Additional procedures implemented by the Lt. Governor's office have allowed us to provide information to the Clerks so that errors can be corrected in a timely manner.

This report has been submitted to the Government Operations Interim Committee as required by *§20A-5-901*. Results of the audit have also been shared with each County Clerk, and they have been instructed to correct any findings.
