Union Station Intermodal Entry Improvements

Transportation and Infrastructure

Requester Information

Legislator Name: Musselman, Calvin R.

Created Date: January 29th 2026 **Submitted Date:** January 29th 2026

Section 1: Requester Details

Description:

This request supports targeted entry-way and interface improvements at Ogden Union Station to enable its full function as Northern Utah's primary intermodal transportation and civic hub. The project focuses on improving how passengers and visitors arrive, orient, transfer between modes, and access downtown Ogden through the Station. These improvements align with statewide transit investments and reinforce Union Station's role as a historic, cultural, and transportation gateway. The project will help solidify Ogden as the downtown and central gathering place for Northern Utah while preserving the Station's historic character.

Is this a multi-year project?

No

Is this project scalable if the Legislature does not fund the full requested amount?

Yes

A short explanation describing how the project might be scaled?

If partially funded, the project can be phased by prioritizing the highest-impact entry-way and intermodal interface improvements. Initial phases would focus on core circulation, arrival sequencing, and mode-to-mode transfer functionality. Additional elements, such as expanded wayfinding and public-facing enhancements, could be delivered in subsequent phases as funding becomes available. This approach allows meaningful progress while maintaining alignment with the project's statewide purpose.

Section 4: Performance Outcome Measurement

Who would benefit the most from this request (who is the target audience)?

Residents and visitors throughout Northern Utah who use rail, bus, and regional transit services; visitors accessing downtown Ogden; and statewide travelers connecting through Union Station as a multimodal hub.

What is this project or program intended to accomplish?

The project will enhance Union Station's ability to function as a seamless intermodal hub by improving how people arrive, move through, and transfer between transportation modes. It will strengthen the Station's role as the primary gateway to downtown Ogden and Northern Utah. The improvements support increased transit usage, tourism, and civic activity while respecting the Station's historic significance. Ultimately, the project reinforces Ogden's role as the downtown and central mobility hub for Northern Utah.

How will the Legislature know whether the project or program achieved its intended purpose?

Success will be measured by completion of planned entry-way and intermodal interface improvements within budget and schedule. Additional indicators include improved passenger flow, clearer transfers between transportation modes, and increased use of Union Station as a regional access point. Coordination with transit partners will confirm improved functionality at the point of arrival. The project's success will also be reflected in enhanced visitor experience and increased utilization of downtown Ogden via Union Station.
