Requester Information

Legislator Name: Sandall, Scott D.

Created Date: January 30th 2026 **Submitted Date:** January 30th 2026

Section 1: Requester Details

Description:

We are requesting funding to assist in adding an arsenic treatment technology to remove arsenic through filters and chemical treatment.

Legislative designee contact information:

Name: Derek Oyler

Organization: Ukon Water

Position: President

Section 2: Funding Information

How will the appropriation be used?

Category	One-time		Ongoing
Personnel Services	2026: 2027:	$0.00 $323,000.00	$0.00
In-State Travel	2026: 2027:	$0.00 $0.00	$0.00
Out-of-State Travel	2026: 2027:	$0.00 $0.00	$0.00
Supplies and Equipment	2026: 2027:	$0.00 $2,500,000.00	$0.00
Technology Purchases	2026: 2027:	$0.00 $0.00	$0.00

Category	One-time		Ongoing
Infrastructure/Capital Investments	2026: 2027:	$0.00 $570,000.00	$0.00
Other Charges/Pass Thru	2026: 2027:	$0.00 $607,000.00	$0.00

Expenditure Total

One-time 2026	One-time 2027	Ongoing 2027
$0.00	**$4,000,000.00**	**$0.00**

Funding Sources:

General Fund

Amount Requested:

2026 (One-time)	$0.00
2027 (One-time)	$4,000,000.00
2027 (Ongoing)	$0.00

Revenue Total

One-time 2026	One-time 2027	Ongoing 2027
$0.00	**$4,000,000.00**	**$0.00**

Is this a multi-year project?

No

Is this project scalable if the Legislature does not fund the full requested amount?

Yes

A short explanation describing how the project might be scaled?

There would be a lower volume of water would be treated if given less funding.

Section 3: Agency Information

Subjects:

Health and Wellbeing

02828

Agency:

250 / Department of Health and Human Services

Type of entity to receive pass-through funding:

Private Not for Profit

Grant recipient

Yes

Requested Direct Award Grant Recipient

UKON Water

Section 4: Performance Outcome Measurement

Who would benefit the most from this request (who is the target audience)?

The water company was created to provide culinary water to Fielding, Utah and surrounding unincorporated rural properties in northern Box Elder County, Utah. The water system has approximately 600 equivalent residential water connections serving residential homes, a school, churches and commercial businesses.

What is this project or program intended to accomplish?

This project is intended to construct an arsenic removal system at Ukon Water's main well and springs to treat the springs and well water to drinking water standards as defined by EPA. Currently Ukon is blending water from another municipality to achieve the same goal but this is only a short term solution as the municipality will be using their water for growth. In conjunction with this project we are expanding the current well and the additional water flows will make it nearly impossible to accomplish lowering the levels of arsenic through blending.

How will the Legislature know whether the project or program achieved its intended purpose?

The legislature and DEQ will know this project is successful when the level's of arsenic are below the federal EPA standards.
