

GREAT SALT LAKE FUNDING AMENDMENTS

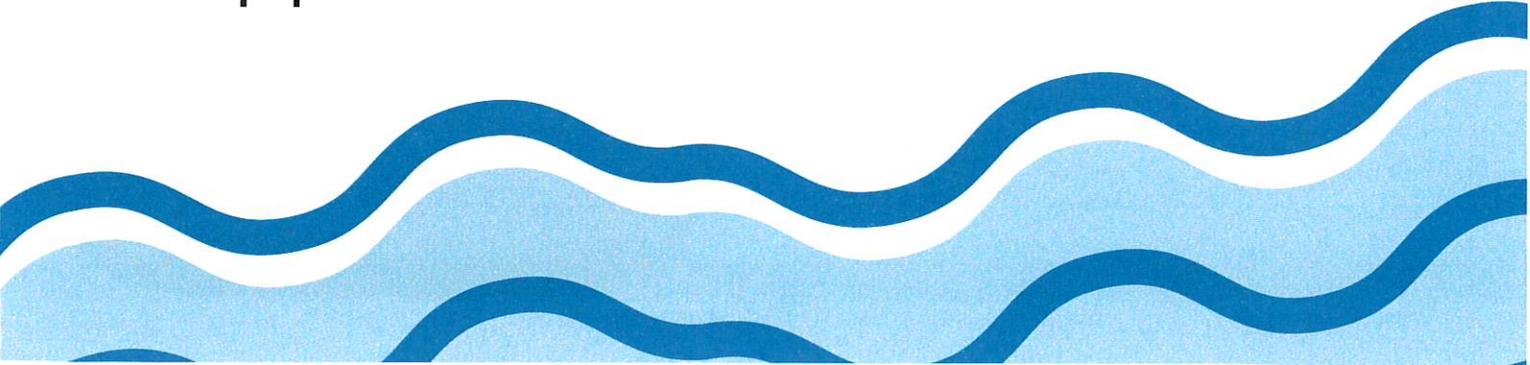

HB 247

REPRESENTATIVE RAY WARD

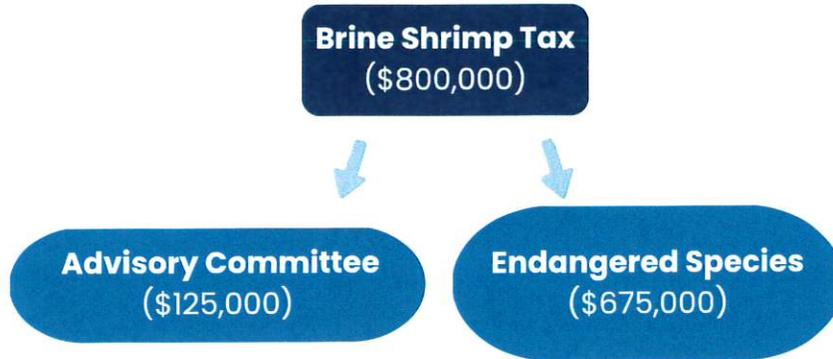

The brine shrimp royalty (3.25 cents per pound) is billed each year based on the amount of brine shrimp eggs harvested.

Currently the brine shrimp royalty is used mostly for things that are **not related to the brine shrimp populations health.**

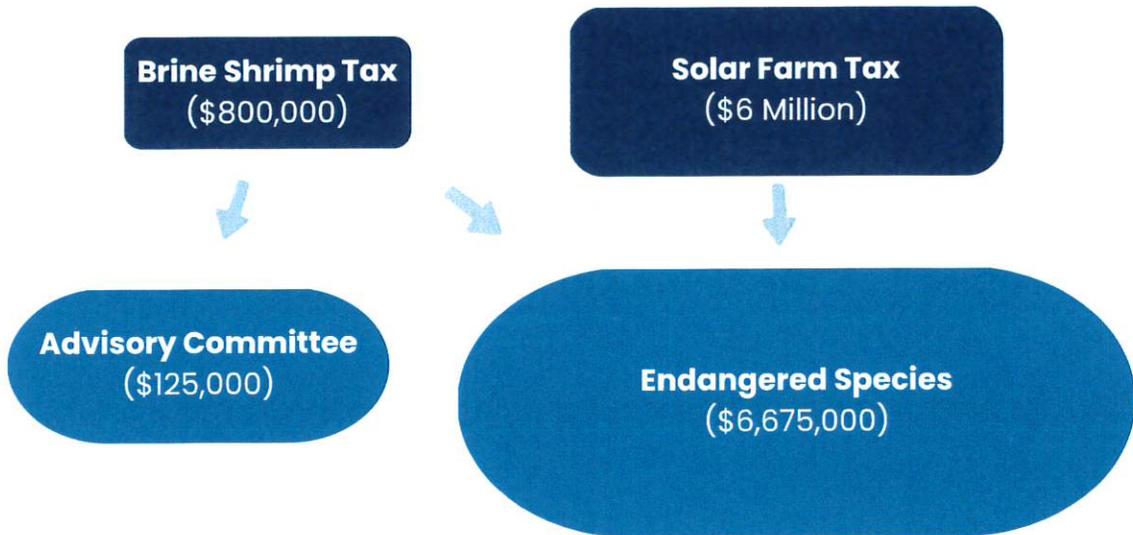

HB 247 would funnel all funds into the sovereign lands management account.

- **\$125,000 for the benefit of the Great Salt Lake**, as directed by the Great Salt Lake Advisory Committee.
 - Any remaining funds will be used to benefit the brine shrimp population by:
 - **leasing water rights to go into the lake**
 - **projects that directly benefit the brine shrimp population**
-
