Yes

Yes

A short explanation describing how the project might be scaled?

Who would benefit the most from this request (who is the target audience)?

The nation would benefit from ensuring this case has adequate resources to be carried out properly due to its high profile nature.

What is this project or program intended to accomplish?

This project intends to ensure constitutional justice is served for both the victim's family, the defendant, and all interested parties involved. An appropriately funded case will ensure fair representation and that all facts will be made available plainly and publicly. Having sufficient funds will reduce the risk of a retrial and ultimately saving the state money.

How will the Legislature know whether the project or program achieved its intended purpose?

The legislature will know this is successful as the case will progress vigorously and openly. The Legislature and general public will have full access as determined by the court. Optimal care will be taken with each facet of this case. Utah will avoid any appearance of embarrassment due to a lack of funds.
