

# H.B. 315 Human Growth and Development Instruction

## What H.B. 315 does

- Requires a free video from an organization.
- Shows medically accurate human development in a tasteful way.
- Includes a high-definition ultrasound and early fetal development.
- Is shown in 5th and 6th grade maturation classes.
- Is shown in health, child development, and biology classes.
- Will be de-branded and provided to USBE with a free license in perpetuity.
- Six other states have adopted policies to show this video.

HB 315 provides medically accurate, tasteful instruction on human development, ensures transparency for families, and offers a free, permanently licensed resource for Utah schools.
