

Wildlife Crossing Structure Projects

Establishing a wildlife crossing account with dedicated annual funding would support projects like these. SCOTT CHEW

I-80 Echo Junction

\$14.7M

Overpass and Fencing

This project is ready for design and will improve public safety while helping elk and mule deer.

US-40 Starvation

\$8M

Underpass

This project is ready for design and will improve public safety while helping elk and mule deer.

I-84 South Weber

\$250K

Fish Passage Project

This project is ready for design and will improve infrastructure flooding resilience while helping native and sport fish.

Photos are illustrative, not depictions of project sites.

35 Antelope Killed At Once

In January, distinct wildlife managers responded to incidents involving pronghorn-vehicle collisions. On January 14, a semi going eastbound from Utah on Highway 40 hit 35 pronghorn on the road, near Dinosaur.
