

Changes to Committee Bill Files

- **HJR 1** (2026 General Session) established limits on the number of committee bill files that may be opened.
 - **Interim committees** may open up to **five** committee bill files.
 - **Special committees** (defined in JR7-1-101(2)(e)) may open up to **two** committee bill files.
- This rule change does not affect the number of bill files that an interim committee may recommend favorably.
