

# OFFICE OF LEGISLATIVE SERVICES

---

Debbie Cragun, Legislative Services Administrator  
Cameron Blair, IT Administrator

STATE OF UTAH  
invites applications for the position of:  
**SOFTWARE ENGINEER, JOB #32105**

**PHYSICAL ADDRESS:** Utah Legislature  
Office of Legislative Services  
W000 House Building State Capitol Complex  
Salt Lake City, UT 84114

**OPENING DATE:** Tuesday, April 19, 2022

**CLOSING DATE:** Open until filled. Applications will be considered on a rolling basis beginning Monday, April 25, 2022.

**Job Description:**

One of the coolest parts about working for the Legislative Services IT team at the State of Utah is the reach your work will have within history in government. We are looking to expand our team of developers and programmers to help with the many software and web projects happening within the Utah Legislature. The work our dev team does is foundational to enabling our legislative work to move forward effectively and successfully. This role will be a non-partisan role and will require some availability to work extended hours between November and March (excluding holidays) each year (General Legislative Session).

**The Ideal Candidate:**

The ideal candidate will have solid experience with Java, SQL, JavaScript, HTML, XML, CSS, VB.NET, etc. You will also be familiar with object-oriented design concepts. You will be able and willing to work with a team of developers on existing and new projects ranging from desktop and web apps, to updating legacy software. Any experience building native apps for iOS/Android is a plus.

**Job Duties:**

- Develop and maintain custom web apps
- Design and maintain SQL databases
- Assist with updates to legislative websites
- Database Design & Development
- Formulate innovative solutions for old and new projects

### Qualifications and Education:

- Knowledge of the entire web development process for front-end and back-end.
- Preferred minimum of 3 years of hands-on experience developing Desktop and Web-based solutions
- Strong background in design and development of enterprise systems as part of a complete software product lifecycle
- Experience with Java
- Experience with Servlets
- Experience with JSP
- Experience with JavaScript
- Experience with CSS/HTML/DOM manipulation
- Experience with VB.NET
- Experience with Apache Tomcat or other web servers
- Know and understand Agile Development methodologies
- Exposure to React and Nodejs
- Understanding of SQL or other relational database
- Can easily thrive working in an energizing environment
- An affinity to solving problems and getting results
- Detail oriented and organized
- Capable in WCF, JSON, XML, and API integration
- Self-starter as well as being able to work on a team
- Other duties as assigned

### Salary Range:

**\$36.05 to \$49.90** per hour plus comprehensive medical, dental, leave and retirement benefits.

### Application Instructions:

Submit a resume and/or intro letter to [hr@le.utah.gov](mailto:hr@le.utah.gov).
