
Fiscal Note
Bill Number HB0376

23-Feb-99

9:44 AM

This bill may have a State fiscal impact. It authorizes a cost of living adjustment to package agencies, to the extent permitted by the agency budget. The actual cost will depend on the amount of increase approved by the Legislature and the availability of funding.

Each one percent increase would cost \$10,800 from the Liquor Control Fund. For example, a 2.5 percent increase would cost \$27,000 from the Liquor Control Fund.

Individual and Business Impact

Operators of package agencies would receive funding sufficient to grant employees an annual cost of living adjustment.
