Enactment of this bill will define the criteria for a given highway to be recommended as a state highway. No additional fiscal impact will be realized with enactment of the bill. However, any given highway that might be reclassified will change who is fiscally responsible for the highway.

---

**Individual and Business Impact**

It is unknown how many highways currently designated as state highways would become local highways under provisions of this bill. If local governments are required to maintain highways currently designated a state highways or the state becomes responsible for highways local governments are maintaining budgets will increase or decrease proportionately.
